### CITY OF ROCHESTER

NEW HAMPSHIRE

For the Year Ending December 31st

Nineteen Hundred and Forty-eight

N 352.07 R67 1948

THE RECORD PRESS

Printers

ROCHESTER, N. H.

#### INAUGURAL ADDRESS

by Mayor Thomas H. Burbank

I thank you first for your support in electing me Mayor and secondly, for your interest which brings you here to watch the inauguration.

I thank Mayor Lyons for his cooperation in the last few days and for his cooperation during the last three years with me as a member of the press. I congratulate him upon completing three years of a smoothly run administration.

I was elected Mayor by the working people of Rochester, who in electing me gave notice that the abortive attempt of the Willey Bill to deal a body blow to organized labor is a failure.

Although elected on the Democratic ticket, I consider that I am a labor Mayor, elected by both Democrats and Republicans, and I shall endeavor to maintain an administration beneficial to them.

Rochester is a good city in which to live. It is friendly and it is growing. I estimate the population must be near 14,000.

This year I believe the Council should give serious consideration to providing more adequate protection for our increased population. Since the first of August, 1947, permits to build seventy residences have been issued.

The National Board of Fire Underwriters recommends hydrants spaced 200 feet apart in city districts and 500 feet apart in outlying areas. In many places our hydrants are 1,000 to 1,200 feet apart. We need more hydrants to better protect our old and new residences.

The National Board of Fire Underwriters recommends one fireman for each 1,000 of population. We have nine men and the chief. Just last week three men answered an alarm in Hansonville. While they were out, two men were sent to Blake Street. One man was left guarding the city. Need I say more?

We need new fire trucks in both Gonic and East Rochester.

The value of radio was apparent to all during the recent disastrous fire, yet only one piece of fire apparatus is so equipped. We need at least two more radio-equipped fire trucks.

The U. S. Department of Justice recommends one police officer for every 1,000 population. We have seven regulars and the chief. We are using one trainee and one special officer full time. These men are working ten hours a day. For the most part there are but three police officers on duty at one time protecting 14,000 people. Don't you think we need more policemen?

In four months' time, the parking meter collection has

totaled \$6,453. One or two police salaries could be charged to that account.

I suggest that for the safety of both our pedestrians and motorists the Council approve some plan of traffic lights for the Square and South Main Street, a report on which should be in your hands at the next meeting.

I believe the Square and South Main Street should be resurfaced and that the Council should explore the feasibility of building our own roads, now that we have a Commissioner who is an experienced road builder.

I should like to see flood lights installed by the city on the high school athletic field. Used by the high school and for summer baseball on a fee basis, they would prove a profitable and self liquidating investment similar to the parking meters. Night lights would give the working population in the city an opportunity to see athletic contests which otherwise they could not attend.

I believe that construction of a municipal garage should be undertaken as soon as possible. Perhaps such an elaborate garage as the one for which plans have been approved is not propitious, but something should be done so that all our equipment can get under a roof.

A need is also apparent for the establishment of a swimming pool so that the young people of Rochester may have an opportunity to enjoy this form of recreation without having to be taken ten or twenty miles to ponds and lakes with bathing facilities.

The funded debt of the city stands at the year's end \$212,257.12, an increase from \$132,757.12 on December 31, 1946. Other notes authorized but not issued of which \$85,000 for a municipal garage is the largest, brings us considerably closer to the city's debt limit of \$417,987.

This year I should recommend that discounts be requested on all city purchases and a strict endeavor made to save a dollar where we can.

I appreciate the responsibility which goes with election as Mayor and I shall do my best to see that the city gets the best value for its money.

Almost to a man you have come to me and expressed your willingness to cooperate during 1948. I feel confident that in your deliberations you will give the working people of Rochester the benefit of your experience and good will.

#### CITY GOVERNMENT

#### AS ORGANIZED JANUARY 1, 1948

#### Mayor, THOMAS H. BURBANK

#### COUNCILMEN

Ward One—Jesse C. Simonds, Maurice A. Jones, Frederick J. Grenier.

Ward Two-Freeman V. Parshley, Albert Nelson, Frederick Maxfield.

# IMPORTANT RESOLUTIONS AND ORDERS

Passed by the City Council, 1948

#### RESOLUTION TO PRESENT BRONZE PLAQUE TO NEWINGTON FIRE CHIEF

Be it resolved by the Mayor and City Council of the City of Rochester: That a bronze plaque be presented to John E. Holden, Chief of the Newington, New Hampshire, Fire Department, for his assistance to us during the fire emergency of October 23 to October 27th, 1947.

Passed January 6, 1948.

#### RESOLUTION TO RATIFY ACTION TAKEN BY FINANCE COMMITTEE FOR YEAR 1947

Be it resolved by the Mayor and City Council of the City of Rochester: That the action taken by the Finance Committee for the year 1947 be ratified by this body. Passed January 6, 1948.

#### AMENDMENT RELATIVE TO BUILDING PERMIT FEES

Be it ordained by the Mayor and City Council of the City of Rochester: That the action of this Honorable Body at its meeting on July 1, 1947, whereby certain fees were approved for the issuance of building permits, which schedule of fees was amended by action of this Honorable Body at its meeting held on October 4, 1947, be further amended by adding the following new paragraph:

"It is further provided, however, that fees for building permits shall not be charged a veteran of either World War I or World War II who plans to construct or have constructed for him a home or appurtenances to a home already owned by him for the exclusive occupancy by himself and his immediate family. This provision shall not be applicable to a veteran who desires to construct a home for investment purposes and any person who falsely applies for the waiver of the building permit fees as may be evidenced by his later conduct, such as by the renting or selling of the property so constructed by him, or for him, shall be retroactively charged with the required fee for building permit and his failure to pay same upon demand by the Building Inspector shall give to the City of Rochester a claim against him and against his property."

Passed January 6, 1948.

#### RESOLUTION TO HIRE IN ANTICIPATION OF TAXES

Be it resolved by the Mayor and City Council of the City of Rochester: That the Finance Committee be authorized to hire in anticipation of taxes a sum not exceeding two hundred and fifty thousand dollars (\$250,000.00), said sum to be hired on notes of the City at such time as the best interest of the City require.

Passed January 7, 1948.

#### RESOLUTION TO SECURE BIDS ON TRAFFIC LIGHT INSTALLATION

Be it resolved by the Mayor and City Council of the City of Rochester: That (1) the Traffic Committee be and is hereby authorized to secure sealed bids covering the cost of complete installation of the traffic light system proposed in the report of that Committee submitted and accepted this date and to report back at the next meeting of the Council.

(2) A copy of the report of the Traffic Committee submitted and accepted this date be mailed to each member of this Honor-

able Council.

Passed February 3, 1948.

#### RESOLUTION ON TIME POLLS WILL BE OPEN ON MARCH 9, 1948

Be it resolved by the Mayor and City Council of the City of Rochester: That on Tuesday, March 9, 1948, the polling places in all six wards of the City of Rochester shall be open at 3 o'clock in the afternoon and shall close at eight o'clock in the evening, Eastern Standard Time.

Passed February 3, 1948.

#### RESOLUTION CITY TO PAY CHAUFFEURS' LICENSES FOR REGULAR TRUCK DRIVERS

Be it resolved by the Mayor and City Council of the City of Rochester: That the cost of driving licenses required by the State for drivers regularly employed to drive City-owned motor vehicles be paid from funds budgeted for the use of the respective departments.

Passed February 3, 1948.

#### AMENDMENT ON ZONING ORDINANCE

Be it ordained by the Mayor and City Council of the City of Rochester: That Chapter XXIX of the General Ordinances known as the "Zoning Ordinance" Article VI, Section 1; paragraph (c) entitled "Board of Adjustment" be amended by striking out said paragraph (c) and inserting in the place thereof the following new paragraph:

"(c) The Board of Adjustment shall consist of five (5) members. On the date of the expiration of the respective terms of the present members of the Board of Adjustment as now constituted, the Mayor, subject to confirmation by the City Council, shall appoint one member to serve until January 1, 1951, one member to serve until January 1, 1952, one member to serve until January 1, 1954, and one member to serve until January 1, 1955. And thereafter shall appoint one member each year for the term of five (5) years. Said members shall be removable by the appointing authority upon written charges and after public hearing. Vacancies shall be filled for the unexpired terms."

Passed March 2, 1948.

#### RESOLUTION ON FOUR DOLLAR INCREASE FOR CURRENT YEAR

Be it resolved by the Mayor and City Council of the City of Rochester: That effective as of March 1, 1948, the weekly wage or salary of each full-time employee of the City of Rochester be and is hereby increased by adding to the sum to which he is entitled under the general Ordinance as amended or existing pay schedules the amount of four (4) dollars per week for the remainder of the current year, 1948.

Passed March 2, 1948.

#### AMENDMENT TO ORDINANCES RELATIVE TO TRAFFIC LIGHT AT EAST ROCHESTER

Be it ordained by the Mayor and City Council of the City of Rochester: As follows: Amend Chapter XIV of the General Ordinances by inserting the following new Section after Section 15 and before Section 16, to be known as Section 15A, as follows:

"15A. All vehicles proceeding easterly along Highland Street, and vehicles proceeding westerly along Route 202 from the Interstate Bridge, so-called, and vehicles proceeding northerly and southerly on Main Street, all of which streets are in East Rochester, so-called, shall stop upon red and amber signals and proceed upon green signals as indicated by the traffic lights installed and operated at said intersection."

Passed March 2, 1948.

#### RESOLUTION TO ESTABLISH WAGE SCALE FOR HEALTH DEPARTMENT

Be it resolved by the Mayor and City Council of the City of Rochester: That the pay schedule for employees in the Garbage Collection Service of the Health Department be established as follows:

Truck Driver\$50.00 per weekLaborers45.00 per weekCaretaker of the Dump38.76 per week

The above scale includes the cost of living increase granted March 1, 1948, and unless renewed will be reduced by that amount at the end of the current year. It also includes an adjustment for holidays lost as the result of the weekly rate. No extra compensation shall be allowed for time lost due to severe weather.

The work week of the driver and laborers shall include covering the regular daily routes and completing same by Friday night each week unless prevented from doing so by severe weather or intervening holiday. The week's work shall in any

event be completed by Saturday night.

The Caretaker of the dump shall be at the dump at least eight hours each day, Monday through Saturday, and if the volume of refuse being dumped by private parties late in the afternoon requires his attendance for a longer work day on occasions, this shall be done without extra compensation.

Passed April 6, 1948.

#### RESOLUTION TO APPROVE \$900.00 FOR REVISING SOUTH MAIN STREET RECONSTRUCTION

Be it resolved by the Mayor and City Council of the City of Rochester: That the sum of Nine Hundred Dollars (\$900.00) be and is hereby appropriated for the purpose of completing and revising plans and specifications for the reconstruction of South Main Street, Central Square and Wakefield Street, the same to be charged in part to the unexpended appropriation of 1947 for Highway Engineering, and the balance to be included in the 1948 budget, and the Mayor and Highway Committee be and are hereby authorized to enter into a contract with Ned Spaulding, Civil Engineer, for said engineering services.

Passed April 6, 1948.

#### RESOLUTION FOR FIRE COMMITTEE TO SECURE BIDS FOR COMPRESSOR

Be it resolved by the Mayor and City Council of the City of Rochester: That the Fire Committee be and is hereby authorized to request tender of bids for the sale of an air compressor and motor now located in the basement of the Fire Station, and to sell the same for the highest bid received; or if in their opinion it is advisable, to reject all bids received and sell for a higher price.

Passed April 13, 1948.

#### RESOLUTION TO PURCHASE TRENCH HOE

Be it resolved by the Mayor and City Council of the City of Rochester: That 1. The Finance and Water and Sewer Committees acting jointly be and are hereby authorized to purchase such trench digging equipment as to those committees acting jointly appears proper at a cost not to exceed Eleven Thousand Dollars (\$11,000.00) including shipping charge.

2. That the cost of the same be charged in part to the appropriation of Nine Thousand Five Hundred Dollars (\$9,500.00) made by this Honorable Body on February 4, 1947,

and in part to the following appropriation.

3. There is hereby appropriated the sum of One Thousand Five Hundred Dollars (\$1,500.00) for the purpose of purchasing trench digging equipment and the Finance Committee is hereby authorized to issue notes in the amount of One Thousand Five Hundred Dollars (\$1,500.00) upon such terms as is deemed proper, said notes to be charged one-half to the Water Account and one-half to the Sewer Account.

Passed April 13, 1948.

#### RESOLUTION DESIGNATING AN ASSISTANT SUPERIN-TENDENT OF WATER WORKS AND SEWERS AND CITY ENGINEER

Be it resolved by the Honorable Mayor and City Council of the City of Rochester: That 1. Joseph Morrison is hereby designated as "Assistant Superintendent Water Works and Sewers," and "City Engineer," and effective this date his hourly rate of pay shall be increased from One Dollar and Ten Cents (\$1.10) per hour to One Dollar and Twenty-five Cents (\$1.25) per hour. All prior resolutions of your Honorable Body with reference to Morrison's official title and his rate of pay shall be amended accordingly.

Wilfred Berube is hereby designated as "Foreman" in the Water and Sewer Department and his hourly rate of pay is increased, effective this date, from .935 per hour to One Dollar and Ten Cents (\$1.10) per hour. All prior resolutions of your Honorable Body with reference to Berube's official title and his rate of pay shall be amended accordingly.

Passed April 13, 1948.

#### AMENDMENT TO THE ORDINANCES RELATIVE TO SALARIES OF THE DEPUTY CHIEFS AND CALL MEN OF THE FIRE COMPANIES

Be it ordained by the Honorable Mayor and City Council of

the City of Rochester as follows:
Amend the General Ordinances, Chapter XXIII, Section 9, paragraphs d, e, f and g by striking out said paragraphs and inserting the following new paragraphs:

"d. The Deputy Chiefs of the City Proper \$255.00, pay-

able semi-annually.

e. The Deputy Chiefs of Gonic and East Rochester \$255.00, payable semi-annually.

f. Members of Companies 1, 2, 5 and 6 \$200.00, payable

semi-annually.

g. Members of Companies 3 and 4 \$200.00, payable semiannually."

Passed April 13, 1948.

#### RESOLUTION FOR FLOOD LIGHTS AT HIGH SCHOOL ATHLETIC FIELD

Be it resolved by the Honorable Mayor and City Council of

the City of Rochester as follows:

That a sum not exceeding Fifteen Thousand Three Hundred Dollars (\$15,300.00) is hereby appropriated for the installation of flood lights at the Spaulding High School football and baseball fields, and the joint flood light committee of the School Board and Council and the joint finance committees be and is hereby authorized to ask for tender of bids for the installation of said equipment with the power to accept one or reject all of said bids.

It is further resolved that the Finance Committee be and is hereby authorized to issue notes of the City of Rochester in a sum not to exceed Fifteen Thousand Three Hundred Dollars (\$15,300.00) said notes to be payable within a period of ten (10) years from the date of issue, from moneys received from a percentage charge of gate receipts, said charge to be determined

by the joint flood light committee.

All moneys received from the percentage charge as outlined shall be held in a budget account designated as the Spaulding High School Flood Light Account, said funds to be used to defray operating expenses, interest costs and retirement of all notes.

In case the revenue as designated above is insufficient, in any one year, to provide for these costs, any balance due is to be included in the school budget and considered as a school expense.

Following the payment in full of these notes the net revenues from the flood lights shall go to the Student Activity Fund at Spaulding High School.

Passed May 4, 1948.

#### RESOLUTION THAT NO CHARGE FOR WATER BE MADE TO THE FOLLOWING CEMETERIES

Be it resolved by the Mayor and City Council of the City of Rochester: 1. That no charge be made for water furnished to the Rochester Cemetery, the Holy Rosary Cemetery, St. Mary's Cemetery, and the East Rochester Cemetery.

2. This resolution shall take effect upon its passage.

Passed May 4, 1948.

#### RESOLUTION TO RAISE MONEY TO DEFRAY THE EXPENSES OF THE CITY FOR THE YEAR 1948

Be it resolved by the Mayor and City Council of the City of Rochester: That there shall be raised, and there is hereby ordered to be raised the sum of \$573,345.64 plus such overlay as may be necessary to defray the expense of the City for the ensuing year. Passed May 4, 1948.

#### RESOLUTION TO PURCHASE A GRADER FOR THE HIGHWAY DEPARTMENT

Be it resolved by the Mayor and City Council: 1. A Special Committee consisting of the Highway and Finance Committee be and is hereby authorized to purchase a replacement for the highway grader at a net cost not to exceed Seventy-five Hundred Dollars (\$7,500.00) the same to be charged to the unexpended Special Appropriation of 1946 for new equipment.

Passed May 4, 1948.

#### RESOLUTION RESCINDING VOTE OF MAY 4 ON OVER-ALL CUT OF 3% ON BUDGET

Be it resolved by the Honorable Mayor and City Council of

the City of Rochester:

Whereas, at a meeting of this Honorable Body on May 4, 1948, a proposed budget in the amount of \$707,512.00 was presented necessitating raising of \$594,571.00 by taxation; and

Whereas, on motion of Councilman Simonds it was voted to

make an over-all cut of 3% on the 1948 budget; and

Whereas, on motion of Councilman Jones it was voted to raise the sum of \$573,345.64 plus overlay by taxation; and Whereas, subsequent to that meeting the Finance Committee

of this Honorable Body has noted that certain items in the 1948 budget are fixed by law and cannot be reduced by the proposed 3%; and

Whereas, the Finance Committee has further noted that the income estimated in the original proposed budget above referred to is now estimated to be in a greater amount by

\$15,000.00.

Now therefore be it resolved as follows:

(1)That the vote of this Honorable Body on May 4, 1948, to make an over-all cut of 3% on the 1948 budget be and is hereby rescinded.

(2) Vote of this Honorable Body to raise the sum of

\$573,345.64 plus overlay be and is hereby rescinded.

Passed May 20, 1948.

#### RESOLUTION PASSING THE 1948 BUDGET

Be is resolved by the Honorable Mayor and City Council of the City of Rochester: The Budget for the year as presented by Councilman Jones be and is hereby approved and adopted. Passed May 20, 1948.

#### RESOLUTION TO RAISE MONEY TO DEFRAY THE EXPENSES OF THE CITY FOR THE YEAR 1948

Be it resolved by the Honorable Mayor and City Council of the City of Rochester: It is hereby ordered and directed that the sum of \$573,346.00 plus such overlay as may be necessary to defray the expense of the City for the ensuing year and which

amount is hereby appropriated, be raised by taxation. Passed May 20, 1948.

#### RESOLUTION TO PERAMBULATE THE TOWN LINES

Whereas Chapter 69, Section 6, of the Public Laws of the State of New Hampshire, provides that the lines between the towns in this state shall be perambulated, and the marks and bounds renewed, once in every seven years, by the selectmen of the town, or by such persons as they shall in writing appoint for that purpose, and whereas the town lines between the City of Rochester and the adjoining towns were last perambulated and the marks and bounds renewed, as by statute provided, in

Now, therefore, it is resolved that the Mayor authorize a person or persons to act as a Committee to perambulate the said town lines, to notify the selectmen of the adjoining towns, and to make return of said perambulation as by statute provided and they are hereby directed to complete said perambulation and make return thereof before December 31, of this year.

Passed June 1, 1948.

#### RESOLUTION ON ISSUING NOTES

To the Honorable Mayor and City Council of the City of Rochester:

Whereas, on June 3, 1947, this Honorable Body voted that the Finance Committee be empowered to borrow a sum not to exceed \$40,000.00 to be raised in any manner they see fit, to complete certain sewer main constructions on Willey Street and Hoyt's Court, and water main constructions on the Old Dover Road and in Shoreyville, so-called, and

Whereas, on August 5, 1947, this Honorable Body voted "That the Finance Committee be and is hereby authorized to issue notes on such terms as by that Committee is deemed advisable in an amount not to exceed fourteen thousand (\$14,000.00) dollars for the purchase of a 750-gallon pumper, the pumper to be selected by the Joint Action of the Fire Committee and the Purchasing Committee," and

Whereas, on September 2, 1947, this Honorable Body voted that "A joint committee composed of the Purchasing Committee and the Highway Committee be authorized to purchase a rubbish collector for the sum of \$6,500.00. The Finance Committee be authorized to raise this amount in the manner deemed most advisable to the City. Charged to the Health Department and

advisable to the City. Charged to the Health Department and to be supervised by the Highway Department," and Whereas, on April 13, 1948, this Honorable Body voted that 1. The Finance and Water and Sewer Committees acting jointly be, and are hereby authorized to purchase such trench digging equipment as to those committees acting jointly, appears proper at a cost not to exceed Eleven Thousand Dollars (\$11.000.00) including shipping charge.

2. That the cost of the same he charged in part to the appears to the same he charged in part to the appear.

2. That the cost of the same be charged in part to the ap-

propriation of Nine Thousand Five Hundred Dollars (\$9,500.00) made by this Honorable Body on February 4, 1947, and in part

to the following appropriation.

3. There is hereby appropriated the sum of One Thousand Five Hundred Dollars (\$1,500.00) for the purpose of purchasing trench digging equipment, and the Finance Committee is hereby authorized to issue notes in the amount of One Thousand Five Hundred Dollars (\$1,500.00) upon such terms as is deemed proper, said notes to be charged one-half to the Water Account and one-half to the Sewer Account, and

Whereas, on May 4, 1948, this Honorable Body voted that a Special Committee consisting of the Highway and Finance Committees be and is hereby authorized to purchase a replacement for the highway grader at a net cost not to exceed Seventy-five Hundred Dollars (\$7,500.00) the same to be charged to the unexpended Special Appropriation of 1946 for new equipment

and

Whereas, on May 4, 1948, your Honorable Body voted that sum not exceeding Fifteen Thousand Three Hundred Dollars (\$15,300.00) is hereby appropriated for the installation of flood lights at the Spaulding High School football and baseball fields, and the joint flood light committee of the School Board and Council and the joint finance committees be and is hereby authorized to ask for tender of bids for the installation of said equipment with the power to accept one or reject all of said bids.

It is further resolved that the Finance Committee be and is hereby authorized to issue notes of the City of Rochester in a sum not to exceed Fifteen Thousand Three Hundred Dollars (\$15,300.00), said notes to be payable within a period of ten (10) years from date of issue, from money received from a percentage charge of gate receipts, said charge to be determined

by the joint flood light committee, and

Whereas, the City Ordinances require that all notes issued shall follow substantially a certain prescribed form, and shall contain the following clause: "In testimony whereof we, the Mayor and Treasurer, in the name and behalf of said City, by virtue of authority in us vested for this purpose by an order of the City Council of said City passed on the ..........day of ........... A. D. ...........," and

Whereas, to conform to the foregoing requirement and the requirements of the State Laws regarding the payment of municipal notes would necessitate the issuance of a series of fifty

notes, and

Whereas, the issuance of a smaller number of notes would be advantageous to the City in determining the interest rate

Now, therefore, be it resolved by the Mayor and City Council that the vote of June 3, 1947, in so far as it refers to the Shoreyville Project, in the amount of Twenty-two Thousand Dollars (\$22,000.00), the vote of August 5, 1947, authorizing the purchase of a fire pumper; the vote of September 2, 1947, authorizing the purchase of a rubbish truck; the vote of April 13, 1948, authorizing the purchase of trench digging equipment; the vote of May 4, 1948, authorizing the purchase of a grader and the vote of May 4, 1948, authorizing the installation of flood lights at Spaulding High School fields, be rescinded only in so far as these various votes refer to the dates of authorization

for the issuance of notes, and

Be it further resolved that the Finance Committee be and is hereby authorized to issue two series of notes, under this date, retired over a period of ten years at \$4,880.00 per year.

And be it further resolved that all the provisions and requirements of the original votes, except the dates of authorizations for the issuance of notes remain in force and apply to these authorizations as of this date.

Passed June 1, 1948.

#### AMENDMENT TO THE ORDINANCES RELATIVE TO SALARIES PAYABLE FROM THE POLICE DEPARTMENT

Be it ordained by the Mayor and City Council of the City of Rochester as follows:

Amend Chapter XXIII of the General Ordinances, Section 8, Paragraph F, by striking out the whole of paragraph F and inserting in the place thereof the following new paragraph:

"F. Each Patrolman and the Assistant Marshal shall be entitled to added compensation over and above his regular salary when and if his services are required beyond his regular eight (8) hours of duty, said added compensation to be the same as said officer is then being paid when said officer's salary is computed on an eight (8) hour day, six (6) day week. All officers shall be on call by the Marshal for extra hours of duty, and all compensation due therefor shall have the approval of the City Marshal."

Passed June 1, 1948.

#### RESOLUTION FOR ADDITIONAL UNITS FOR FLOOD LIGHTS AT SPAULDING ATHLETIC FIELD

Be it resolved by the Honorable Mayor and City Council of the City of Rochester: That the sum of eight hundred and seventy-six dollars and ninety-six cents (\$876.96) be and is hereby appropriated, to be charged to revenue surplus for the purpose of purchase and installation of certain units for flood lights of the Spaulding Athletic Fields additional to those units covered by the appropriation of this Honorable Body on May 4, 1948, said sum to be repaid in accord with the provisions of the vote of this Honorable Body on May 4, 1948, relative to other funds appropriated for the said flood lights.

Passed June 1, 1948.

#### RESOLUTION ON TIME FOR POLLS TO BE OPEN

Be it resolved by the Mayor and City Council of the City of Rochester: That on Tuesday, September 14, 1948, at the Primary Election, the polling places in all six wards of the City of Rochester shall be open at 9 o'clock in the forenoon and shall close at 6 o'clock in the evening, Daylight Saving Time.

Passed July 6, 1948.

#### RESOLUTION TO RAISE MONEY ON NOTES

Be it resolved by the Mayor and City Council of the City of Rochester: That the City Council authorize the Finance Committee to raise on notes the amount of \$11,000.00 to install water on Ten Rod Road and install sewer on Jenness Street as petitioned in this meeting.

Passed July 6, 1948.

#### RESOLUTION TO RAISE \$50,000.00 ON NOTES

Bc it resolved by the Mayor and City Council of the City of Rochester: That the Finance Committee be authorized to borrow in anticipation of taxes the sum of fifty thousand dollars (\$50,000.00) on such terms and for such times as said Finance Committee shall deem to be for the best interest of the City.

Passed July 27, 1948.

#### AMENDMENT TO THE ORDINANCES RELATIVE TO TAXICABS

Be it ordained by the Mayor and City Council of the City of Rochester: That the General Ordinances of the City of Rochester, Chapter XVI, Section 11, as amended June 4, 1946, be amended by striking out all of said Section 11 and inserting

the following new section:

"Section 11. The City Council may in its discretion grant licenses permitting taxicabs, as defined in Section 10, to be operated in the City of Rochester, to such individuals, partnerships and corporations as it may deem expedient, and no vehicle shall be so operated unless so licensed. Any license so granted shall become null and void if not taken up after thirty days from date of approval by the City Council. The maximum number of taxi permits to be issued and outstanding at any time during any calendar year shall be limited to twelve (12)."

Passed August 3, 1948.

#### RESOLUTION RELATIVE TO NUTTER STREET

Resolved by the Honorable Mayor and City Council of the City of Rochester: 1. That the present highway known as Nutter Street in said Rochester be accepted as a public way for a distance of 642 feet from Portland Street in the direction of Franklin Street;

2. That water and sewer lines be extended from their present terminus for a distance of 450 feet on said Nutter

Street;

3. That said extension be made conditional upon Norman

Raitt executing the following agreement:

It is hereby agreed by the said Norman Raitt of Rochester that if the City will install water and sewerage on Nutter Street for a distance of 450 feet from its present terminus, the said Norman Raitt will guarantee to the City of Rochester, a return upon its capital investment in an amount equal to the interest paid by said City per annum upon said investment plus 2½ per cent to be by them paid annually, less a credit against the same for all taxes and water rates paid with respect to new houses built upon lots along streets in which said water and sewerage are installed.

That the Honorable Mayor be and hereby is authorized to

execute said agreement on behalf of said City.

Passed August 3, 1948.

#### RESOLUTION TO PURCHASE AND INSTALL FOUR OVERHEAD DOORS AT THE CENTRAL FIRE STATION

Be it resolved by the Mayor and City Council of the City of Rochester: That a sum not exceeding \$1,600.00 be and is hereby appropriated, to be charged to Revenue Surplus, for the purpose of buying and installing 4 (four) overhead doors at the Central Fire Station.

Passed August 3, 1948.

#### RESOLUTION ON RATE OF PAY OF SWEEPER OPERATOR

Be it resolved by the Mayor and City Council of the City of Rochester: That the rate of pay of the sweeper operator be established at \$1.05 per hour, such rate to be paid only during the seasons when the sweeper is in operation, and for not more than eight hours in any one day.

Be it further resolved that this be retroactive to July 1,

1948.

Passed August 3, 1948.

#### RESOLUTION FOR GARBAGE COLLECTION ON HANCOCK TERRACE

Be it resolved by the Mayor and City Council of the Citu of Rochester: That the garbage collection service be extended to include Hancock Terrace at such times as it is possible to drive in with the truck.

Passed September 7, 1948.

#### RESOLUTION ON BID OF JOHN IAFOLLA COMPANY

Be it resolved by the Mayor and City Council of the City of Rochester: That the bid of the John Iafolla Company for the

construction of South Main Street, Central Square and Wakefield Street submitted in response to invitation for bids pre-pared by the Highway Department of the State of New Hampshire be and is hereby accepted.

Be it further resolved that the action of this Council in special meeting held on August 27 in accepting said bid be and

is hereby ratified and confirmed.

Be it further resolved that the veto of the Mayor rendered at the special meeting held on August 27 be and is hereby overridden.

Passed September 7, 1948.

#### RESOLUTION ON TIME FOR POLLS TO BE OPEN

Be it resolved by the Mayor and City Council of the City of Rochester: That on Tuesday, November 2, 1948, at the Biennial Election the polling places in all six wards of the City of Rochester shall be open at 9 o'clock in the forenoon and shall close at 6 o'clock in the evening, Eastern Standard Time. Passed September 7, 1948.

#### AMENDMENT TO THE ORDINANCES RELATIVE TO SALARIES

Be it ordained by the Mayor and City Council: That Chapter XXIII, Section 6, Paragraph e, of the General Ordinances of 1944 as amended July 2, 1946, and further amended May 6, 1947, be further amended by striking out the figures \$6.95 and inserting the figures \$11.95 so that said section will read as follows:

Each Ward Clerk \$11.95 for each election day and an additional sum of \$1.10 for each election return and \$.55 for each juror drawn."

Passed October 5, 1948.

#### RESOLUTION ON THE DEATH OF THOMAS K. REDDEN

Be it resolved by the Mayor and City Council of the City of Rochester: That whereas the citizens of Rochester, New Hampshire, young and old, have lost one of their most able and conscientious officials, devoted to his duty and yet humble in the service which he did render, in the untimely death of their Chief of Police, Thomas K. Redden, on September 19, 1948;

Now, therefore, we, the Mayor and City Council of the City of Rochester, do extend to his widow, Sara Redden, and his son, Michael Peter Redden, our deep and sincere sympathy in the

loss of their husband and father.

Passed October 5, 1948.

#### RESOLUTION RELATIVE TO THE STATE POLICE DEPARTMENT

Be it resolved by the Mayor and City Council of the City of Rochester: That

Whereas the City of Rochester did, on the 19th day of September, 1948, lose the services of one of its most valued officials

by the untimely death of Thomas K. Redden; and

Whereas the New Hampshire State Police by its officers and men, under the leadership of Col. Ralph Caswell, did extend to the Police Department and the people of the City of Rochester a great service by assuming the duties and responsibilities of policing the City of Rochester during the morning hours of September 22, 1948, while the officials of the City of Rochester and many citizens were in attendance at the funeral services for our late Chief of Police;

Now, therefore, we, the Mayor and the City Council of the City of Rochester, do hereby extend to the New Hampshire State Police and Col. Ralph Caswell our thanks and apprecia-

tion; and

Be it further resolved that a copy of this resolution be forwarded to Col. Ralph Caswell, New Hampshire State Police, Concord, New Hampshire.

Passed October 5, 1948.

#### RESOLUTION FOR WATER EXTENSION

Be it resolved by the Honorable Mayor and City Council of the City of Rochester: That the Water Committee be and is hereby authorized to construct and extend a six (6) inch water main, together with necessary hydrants for reasonable fire protection, from the standpipe on Rochester Hill fourteen hundred (1400) feet, more or less, southerly along Route 16, and then six hundred and forty (640) feet, more or less, across land of William H. Champlin, Jr., to the residence of the said Champlin at a total cost of Six Thousand Three Hundred Fifty Dollars and Fifty-five Cents (\$6,350.55), of which total cost the said Champlin shall pay to the City of Rochester the sum of Two Thousand Sixty-seven Dollars and Seventy Cents (\$2,067.70) to cover the cost of installation across his own land and One Thousand Four Hundred Twenty-seven Dollars and Sixty-two Cents (\$1,427.62) to cover one-third (1/3) of the cost of installation along said highway, making a total sum to be paid by the said Champlin in the amount of Three Thousand Four Hundred Ninety-five Dollars and Thirty-two Cents (\$3,495.32), and a total to be paid by the City of Rochester in the amount of Two Thousand Eight Hundred Fifty-five Dollars and Twentythree Cents (\$2,855.23). Work on this project shall not be started until the said Champlin has entered into a binding agreement with the said City to make the above payments on or before the completion of the work or within fifteen (15) days thereafter. Cost of the project to be charged to the current funds on hand of the Water Department in the amount of \$2,855.23.

Passed November 3, 1948.

#### RESOLUTION ON TIME FOR POLLS TO BE OPEN

Be it resolved by the Mayor and City Council of the City of

Rochester: That on Tuesday, December 7, 1948, at the City Election, the polling places in all six wards of the City of Rochester shall be open at 9 o'clock in the forenoon and shall close at 6 o'clock in the evening, Eastern Standard Time.

Passed October 18, 1948.

#### AMENDMENT TO THE ORDINANCES RELATIVE TO SALARIES

Be it ordained by the Honorable Mayor and City Council of the City of Rochester: 1. Amend Chapter XXIII, Section 6, paragraphs a, b, and c by striking out said paragraphs and inserting the following new paragraphs:

"a. Each Supervisor of the Check-List \$11.32 a day for

each day of actual service, excepting the Chairman who shall receive \$11.95 for each day of actual service.

b. Each Ward Moderator \$12.59 for each election day.

c. Each Ward Selectman \$11.32 per day for actual service,

including election day.
2. This amendment shall take effect as of October 1, 1948.

Passed October 18, 1948.

#### RESOLUTION TO PURCHASE TRAILER FOR WATER DEPARTMENT

Be it resolved by the Mayor and City Council of the City of Rochester: That a special joint committee consisting of the Water Committee and the Finance Committee be and is hereby authorized to purchase a trailer having a capacity of fifteen (15) tons for the use of the Water and Sewer Department at a cost not to exceed twenty-three hundred dollars (\$2,300.00), delivered, the same to be paid from the surplus in the hands of the Water Department.

Passed November 23, 1948.

#### RESOLUTION TO PURCHASE A STORAGE BUILDING FOR THE WATER DEPARTMENT

Be it resolved by the Mayor and City Council of the City of Rochester: That a special joint committee of the Finance Committee and the Water Committee and the Public Building Committee be and is hereby authorized to purchase a storage building of steel construction, the size to be at least forty feet by one hundred feet, for the use of the Water and Sewer Department at a cost not to exceed Fifty-six Hundred Dollars (\$5,600.00), delivered, the same to be paid from the surplus in the hands of the Water Department.

Passed November 23, 1948.

#### RESOLUTION TO PURCHASE A SIDEWALK TRACTOR

Be it resolved by the Mayor and City Council of the City of

Rochester: That a special committee consisting of the Highway Committee and the Finance Committee be and is hereby authorized to purchase a sidewalk snowplow tractor and bush mower at cost not to exceed twenty-one hundred (\$2100.00) dollars, the same to be financed by note or notes issued at the discretion of the Finance Committee.

Passed November 23, 1948.

#### RESOLUTION TO TRANSFER BALANCES

Resolved by the City Council of the City of Rochester: That if found necessary in closing the accounts of the year to transfer from a Department where there is a balance to a Department where there is a deficit the Committee on Finance be authorized to make such transfer.

Passed December 9, 1948.

#### RESOLUTION ON DEFICIT OF OCTOBER FIRE, 1947

Be it resolved by the Mayor and City Council of the City of Rochester: That whereas there is a deficit of \$18,273.49 still open upon the books of the City for expense incurred during the fighting of the great fire of October, 1947; and

Whereas at the same time there are several unexpended

balances of special appropriations;

Now therefore, be it resolved as follows:

That the balance of \$306.00 on the Engineering Survey

Account,
2. The balance of \$819.40 on the special appropriations for the purchase of a rubbish collector, trench hoe, and the fire pumper,
3. The balance of \$1,253.28 outstanding in an account

for the purchase of general equipment,

4. And the balance of \$16,168.14 in the Reserve for Abatement of Taxes for 1947, all be transferred, so much as may be necessary, to balance the said fire expense account.

Passed December 9, 1948.

#### FINANCIAL STATEMENT

To the Honorable Mayor and City Council, Rochester, N. H.:
Gentlemen:

In accordance with established custom, I submit the following report of the financial condition of the City of Rochester as of the close of business December 31, 1948. The report follows the same general form as in past years.

Exhibits A to D reflect the financial statements as of the close of the year. The various schedules show in detail the accounts that are reflected in the final balance sheets.

The Total Funded Debt shows an increase of \$97,550.00 which is accounted for as follows:

New Issues:

New Issues:	
Water Construction Notes \$77,450.00 General Equipment Notes 48,800.00	\$126,250.00
Notes Paid:	φ120,200.00
Water Construction Notes \$5,000.00 Sewer Construction Notes 3,200.00 Highway Construction Notes 10,500.00 General Equipment Notes 7,500.00 City Hall Notes 2,500.00	
	28,700.00
Increase	\$97,550.00
The Total Funded Debt as of January 1, 1949, is divided as follows:	\$309,807.12
Water Debt (Payable from Water Revenues)	\$95,450.00
Municipal Debt:	
Payable from Reserve for Retirement of Debt Payable from future Tax Levies	20,757.12 193,600.00
	\$309,807.12
The Budget Operations for the year show a bacess of charges of \$18,612.12, accounted for as follows:	
Excess of Revenues over Estimates	\$12,616.95 5,995.17
	\$18,612.12

However, an analysis of the Revenue Surplus Account, as reflected in Exhibit D shows there was authorized to be expended from this source \$51,845.44. This amount was in excess of the regular budget for 1948 as authorized by the City Council.

I believe the accompanying exhibits and supporting schedules reflect fairly the financial condition of the City on December 31, 1948.

Respectfully submitted,

J. STACY TRIPP, City Accountant.

#### General Maintenance

F. M. Valves were inspected during the year. Regular inspections of the water were made during the year to keep the water storage system in the best possible condition at all times. Samples of water from the system were sent to the State Laboratory of Hygiene for analysis as required by the Director of Division and the reports have been very satisfactory.

Much work around the ponds and pipe line was done, bushes were cut and algea treated.

We expect during 1949 to acquire an increased water supply so that we will be able to meet the demands with better service.

The purchase of the trench digger has proven to be a valuable asset to the Department as the cost of pipe installations has been greatly reduced.

We also believe the new Quonset hut, 40 feet by 100 feet, will give ample storage space for all equipment and material not in immediate use.

Respectfully submitted,

GEORGE D. DAME, Superintendent.

# REPORT OF SUPERINTENDENT OF SEWERS

For the Year Ending December 31, 1948

To the	Comm	ittee	on S	Sewers:

#### MISCELLANEOUS ACTIVITIES

Buildings found unlocked at night	358
Aids rendered (payroll escorts, funerals, etc.)	347
Complaints answered	1,959
Aids to other departments	362
Accidents investigated	292
Animals killed at request of owners	88
Parking violation tags issued	2,926
Lodgers put up at the Police Station	469
Emergency ambulance calls	38
Money received from parking fines	\$716.25
Money received from parking meters	18,356.84

Amount of money received from court costs, fines and fees may be found in the annual report submitted by the Clerk of the Rochester Municipal Court.

1948 has been saddened for all of us by the passing of our former Chief. During my four months as Acting Chief, I have tried faithfully to carry on in the same general lines.

Our parking meters have proved, I believe, to be a definite success, the year 1948 taking in \$18,356.84. It might be advisable in the coming year to add a few more meters. We have had a part time clerk whose services were greatly needed. We have added five outside telephone call boxes and installed a central switchboard to control them in our own office.

I believe that it would be wise to turn in our oldest cruiser, a 1947 model, and purchase a new one. This cruiser has been in constant use and has now reached the repair stage where it will be to the city's financial advantage to change it. We received our new cruiser in May. This cruiser has been used chiefly in the Gonic and East Rochester areas. It is equipped with a two-way radio.

Our traffic light underground work is laid and we hope to have the lights in operation before spring. This will be a greater protection for the people of Rochester.

This has been a very active year in the police department, and it was fortunate, indeed, that we had two more patrolmen added to the force. There are many demands made upon our department. Many complaints have to be checked, even though many prove groundless. Even with higher prices and the increased demands, we have made every effort to keep our budget down to a minimum that will still give a city of our size the protection which it needs.

In closing, I wish to thank His Honor, the Mayor, the members of the Police Committee and the City Council for their faith in me and also for their splendid help and cooperation, both to me personally and to the police department. I wish to thank the members of the police department for their cooperation.

This department also wishes to express appreciation to the Court, the City Solicitor, and to the various other State, County

and Municipal departments for the cooperation and assistance they have extended to us during the year 1948.

Respectfully submitted,

ERLON H. FURBUSH, City Marshal.

#### REPORT OF CITY SOLICITOR

To the Mayor and City Council of the City of Rochester:

On December 31, 1948, I completed my second year as City Solicitor. It has been a pleasure for me to serve with you and to counsel and advise you from time to time; it has been a great experience for me and I hope I have been of assistance to you.

We have amended our Ordinances several times during the year, which amendments point out the necessity for revising our general Ordinances in order that we may be brought up-to-date. It is hoped that some time within the next year or so we may have a special committee for that purpose and if I continue to serve as your City Solicitor, I assure you that I will be most happy to cooperate with that committee.

The claim of the City of Rochester for moneys expended in fighting the great fire of 1947 against the Boston & Maine Railroad has been prepared and writs will have been served and the action entered in the Superior Court some time during the first part of 1949.

During the past year, 1948, we have seen the passing of one of our most efficient City officials in the death of Thomas K. Redden, City Marshal, and for some months the work-load upon the City Solicitor was increased. I am happy, however, to report that with the final determination and selection of the new City Marshal, Erlon Furbush, the duties of your City Solicitor in the prosecution of criminal cases brought before the Municipal Court have been alleviated by the fine cooperation of Marshal Furbush, Assistant Marshal Nickerson, and all the members of the Police Department.

I also would express my gratitude to Judge Emery and Victor Cardosi, Clerk of the Municipal Court, for their cooperation.

Respectfully submitted,

RICHARD F. COOPER, City Solicitor.

# REPORT OF CLERK OF MUNICIPAL COURT

To the Honorable Mayor and City Council, Rochester, N. H.:

I herewith submit a statement of the condition of the finances of the Rochester Municipal Court as of December 31, 1948.

#### VICTOR CARDOSI,

Clerk.

This is to certify that I have examined the accounts of Victor Cardosi, Clerk of Municipal Court of Rochester, for the year ending December 31, 1948, and I find them as set forth in the above statement with all payments to the Treasurer and otherwise properly receipted for, together with a cash balance on

hand of \$14.63, and checking account balance of \$16.05.

JUSTIN A. EMERY,
Justice.

# REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Mayor and City Council, Rochester, N. H.:

Gentlemen: I herewith submit my report for the year ending December 31, 1948.

I have inspected the scales at stores, shoe shops, grain mills, laundries, hospital, and the Boston & Maine freight, baggage and express scales. I have also inspected those of farmers, poultry dealers, junk dealers and ice and coal dealers, and measured wood dealers' trucks.

All gasoline, grease and kerosene pumps have been inspected and sealed.

Respectfully submitted,

FRANK D. CALLAGHAN, SR., Sealer of Weights and Measures.

# REPORT OF CHIEF ENGINEER OF FIRE DEPARTMENT

To the Honorable Mayor and City Council of the City of Rochester:

Gentlemen: In rendering my report of the Fire Department for the year ending December 31, 1948, I will state our fire losses were below the average for the year, therefore, we should be prepared for whatever emergency may arise.

At this time it seems advisable for the City to consider replacing the trucks in East Rochester and Gonic.

There were 266 alarms in the City of Rochester which consisted of 44 box alarms, 222 still alarms, 1 engineer call, 9 brush fires, 25 car fires, 4 out of town calls, 3 false alarms in Rochester, 4 false alarms in East Rochester.

There were 20 calls in East Rochester and 18 in Gonic for the year.

The estimated value of buildings and contents damaged by fire:

Estimated value of buildings	\$63,600.00
Insurance on same	130,050.00
Insurance paid	11,090.33
Estimated value of contents	115,825.00
Insurance on same	135,100.00
Insurance paid	7,295.40

At this time I wish to express my appreciation to His Honor, the Mayor, Members of the City Council, Committee on Fire Department, the Police Department, the Board of Deputies, and Members of the Department, and to all other persons who have rendered us help throughout the year.

Respectfully submitted,

R. G. SEAVEY, Chief Engineer.

#### REPORT OF BOARD OF HEALTH

To the Honorable Mayor and City Council of the City of Rochester, N. H.:

We hereby submit our report for the year ending December 31, 1948:

Number of infectious or contagious diseases reported:

Scarlet fever	1
	110
Measles	113
Chicken pox	25
Whooping cough	22
The house local	3
Tuberculosis	3
Spinal meningitis	1
Scabies	20
Impetigo	30
	22
Pediculosis	22
Olivian	
Clinics:	
Medical	24
Orthopedic	4
Mental Hygiene	10
Tuberculosis	3
z aberearone	•
Mental Hygiene follow-up, 6.	
	162
Whole number of deaths excluding stillbirths	
Number of stillbirths	15

This is a low death rate taking into account the number of out of town people who enter our hospital in a moribund condition.

Death rate per 1,000 (14,000 population) .....

Number of deaths from cancer	32
Number of deaths from cardio-vascular renal diseases	93
Number of deaths from pneumonia	4
Number of deaths from tuberculosis	1

There were no deaths from measles, scarlet fever, typhoid fever, diphtheria and gastro-enteritis.

It will be noticed that practically 20% of whole number of deaths was due to cancer, some of which might have been avoided by early advice of a physician.

Respectfully submitted,

FORREST L. KEAY, M.D., CHARLES E. GOODWIN, Health Officer, CHARLES E. MOORS, M.D.

#### REPORT OF OVERSEER OF POOR

To the Honorable Mayor and City Council of the City of Rochester, N. H.:

To the Honorable Mayor and City Council:

Gentlemen: At a meeting of the trustees of the Rochester Public Library, January 17, 1949, it was voted that the reports of the secretary, librarian and treasurer be presented to the city council as the annual report of the trustees for the year 1948.

J. STACY TRIPP.

Secretary.

## REPORT OF LIBRARIAN

To the Board of Trustees of the Rochester Public Library:

Gentlemen: In summarizing the work of the library for this fifty-fifth annual report for the year ending December 31, 1948, the most notable fact is: More people are asking questions than ever before!

The people of Rochester are mindful of their responsibilties as citizens of a country which is leading the world. They are studying the past, investigating the present and even speculating about the future. The free public library is as vital a part of our educational system as the schoolhouse. It must furnish the printed resources not only to guide the new generation, step by step, and classroom by classroom, but to keep the whole body politic informed. Even those who have come to believe that they have finished their education have been stirred by world events to extend the boundaries of their knowledge by a broadened personal reading and study. Indeed, in the opinion of some educators, if the adults are not stirred to knowledge and so to action, today's children may not have the choice—"to read, to know and so to live."

Two thousand three hundred and eighty-five students have been counted during the year in the reference room and of this number 1,396 needed the help of an assistant to locate complete information. Only 214 of these questions came from the children and resources for the continuance of our adult education must be extended during the coming year. For the past four years we have hoped to retain a new assistant long enough to train her especially for the position of reference librarian, with adequate working knowledge of the reference material and having charge of the information file, picture collection and periodi-This training cannot be accomplished in the few months that our apprentice assistants remain. Therefore work in this department has been carried on by the two senior assistants, whose attention must, of necessity, be too much divided. In addition to a trained assistant much new material is likewise needed. A list of all requested subjects for the year has been kept, our material checked, and the most up-to-date books on forty-four subjects will be among the first purchases of the new year. Industrial directories are the most urgent need, followed by additions to New Hampshire laws. Through our State Representative, Mr. Fernald, we are confident that an index to New Hampshire laws will be supplied by our state. A new Encyclopedia Britannica, Britannica Junior and Britannica atlas have been purchased from the interest of the John McDuffee Annex fund.

With the volume of work done in information and reference it was unexpected to find, after the last tabulations had been made, that the general circulation had increased by 3,670. The total figure this year being 67,190. One of the biggest problems and one requiring much time and study is to forecast the

demand for unpublished books. Ordering is done three months in advance. Our decision is guided by reviews, literary journals, advertisements, and by the reputation of the author and publisher. Finally, the character of the reading public, the season of the year, and the trends of current history must be considered. By availing ourselves of pre-publication offers many highpriced books have been added; for example, Stevenson's "Home Book of Proverbs, Maxims and Familiar Phrases," listed to sell for \$20.00, cost the library only \$10.66. The expenditures for books have been kept to \$2,141.45. Ten years ago, according to our records, the average price per volume was \$1.36. This year the average has been \$2.16. Fifty-six volumes have been purchased from the John Greenfield Library Fund, 52 from the Samuel D. Felker Fund, 45 from the Charles and Aroline B. Greenfield Fund, 28 from the John Hanscam Trust Fund, 11 from the Sarah L. Varney Library Fund, 8 from the Jennie Farrington Annex Fund, and all reference books from the John McDuffee Annex Fund. The balance of 730 from the general fund.

In fiction buying, should the library select good fiction by its own standards, or give the readers whatever kind they want? With the approval of the book committee a few so-called best sellers were purchased which, by our standards of judging, were not considered library material. Our reasons for this decision to purchase were: the requests came from our best readers who keep abreast with what is being published and read throughout the country; the prices were in some instances as high as \$6.00 and the individual did not consider the reading worth the price of private purchase; and, lastly, this is a library for the people. From results of this decision we consider that the money spent on these few books paid dividends in satisfaction to our best readers, at the present time twenty being on the reserve list for a \$2.69 purchase.

The children's department shows a circulation gain of 1,754 and reflects the concentrated efforts of library workers and teachers, whose 1948 plan was to make books more attractive than comics. And why are they called comics? Is it comic that they undermine the morals of our children? Is it comic that they destroy their love of reading? Perhaps the librarian of today is more keenly aware of the harmful results, in terms of reading habits, than the teacher or the parent. Many articles are being published on this subject by experts in child guidance and before another report is written we hope much may be accomplished in restriction of publications.

Three thousand thirty-eight readers were counted in the children's room and the number of books borrowed for home reading reached 15,407. Four teachers, Miss Whipple, Mrs. Redlon, Miss Pearson and Miss Nelson, arranged reading lists to encourage vacation reading of library books and 55 children read 533 books. The Rochester Woman's Club sponsored a story hour once each week throughout the winter months, club members delighting the children with their reading of many old favorites and introducing them, too, to some of the newer classics. This service was greatly appreciated and a total of 315

children attended. Miss Appleton of our Rochester radio station, WWNH, contributed to the joy of the young folks with an afternoon of stories and records. Classes from the various schools and troops from the Girl Scouts have been given instruction in library procedure during the year. A full-time assistant is needed in this department, that the best possible help be given to the children.

Again we have two agencies functioning. After an interval of twenty-one months with no library service in Gonic, Mrs. Adelia Lunt was selected, assuming charge of that agency on March 9th. The only quarters available were in the Gonic School and that necessitates closing the library room during all vacation periods. In the 27 weeks open 157 patrons have been registered and 3,236 books given out, a weekly average of 119. Two thousand eight hundred and sixty-nine of the total number have been borrowed by the children and that figure alone warrants the total expenditure for maintenance. The adult figure is small but adults can reach the main library with its wider choice of books.

The East Rochester agency has continued to give the same efficient service to that community but the circulation shows a loss of 223, the total for 1948 being 1,193. Because of the hours that this agency is open, circulation is restricted, for the most part, to adults. Children in this section need library service, should form library habits, but with hours from 7 to 9 P. M. parents refuse, justly, to permit their children to visit the library. We strongly urge that recommendations be made for at least one afternoon opening each week in favor of East Rochester's young folks. Four teachers, all conscientious educators, transported books from the main library for their particular grades. There could be no home loan with this service but at least the children in these four grades were stimulated to reading for enjoyment, a vital factor in every young person's life.

About the building much could be done for improvement of looks and service. High costs have been considered for the past four years and few recommendations have been made. However, three items should be acted on in 1949: the services of a cleaning woman for a few hours weekly to remove four years' accumulation of dust on the books and shelves and keep them in suitable cleanliness for consultation at all times, a water heater, and a staff room for the comfort of the help. There is such a room in the basement but it needs refinishing, floor covering and furnishings.

In concluding, here is a very brief summary of your library investment. To buy books and magazines, catalog them, house them, repair them and help readers find the material they want, cost an average of 23c last year for each book or periodical lent. A reader who borrowed one book a week got \$11.96 worth of actual service plus all the value of the books he read. The PUBLIC LIBRARY is the taxpayer's best buy!

The librarian is appreciative for the loyalty and good will of an alert and cooperative staff. At all times the trustees

have been interested and ready with wise counsel and assistance. We thank all who, by their gifts, advice and encouragement, have helped to make the library of more service to the people during 1948.

Respectfully submitted,

E. VELMA	Foss, Librarian.

# REPORT OF SUPERINTENDENT OF SCHOOLS

To the Rochester School Board:

This is my sixth report and the fifty-seventh in the series of annual reports of the superintendents of schools of Rochester. In it will be found information concerning the highlights of the year's work of 1948, together with certain statistical information and recommendations concerning improvements in the program of the schools and in the physical plant. Appended are the reports of John M. Cotton, Headmaster, of Spaulding High School and the School Nurse, Nora Scahill.

During the year the school department and the City of Rochester suffered a tragic loss in the death of Miss Jeanie J. Keir, principal of Allen School. Miss Keir was a rare person, respected and loved by the community and by the several generations of children who came under her inspiring leadership. She was one of the select few who may truly be called "master teachers."

#### SCHOOL PERSONNEL

Following the wartime period with its many changes in personnel, 1948 witnessed a refreshing return to stability in the faculties of the Rochester schools. Only one replacement, Mrs. Ellen Tuttle, was made in the elementary schools. Mrs. Gloria Barris was elected to the newly created position of instructor of elementary physical education. At Spaulding High School there were two replacements made and two additional teachers hired. Mrs. Florence Emerson, instructor of girls' physical education, and Mr. George Hirst, instructor of cabinet making, both left teaching and were replaced by Miss Sharon Stepanian and Mr. Ernando DeVittori. Mr. Alexander J. Milligan was employed as an additional science teacher in the junior high school and Mr. Alson Brown as instructor in vocational agriculture, the latter course being offered in 1948 for the first time. Mr. William King, director of instrumental music, resigned early in the fall and was replaced by Mr. Roger C. Snow.

Certain changes in teaching assignments were made for the 1948-49 year. Mr. Edward H. Herman, Director of Athletics, was transferred from the position of teacher of general science in grades 7 and 8 to the position of guidance counselor. Mr. Harold Thompson was given an assignment in grades 9-12 rather than in 7-12 as in the previous year. Mrs. Arline Daley was transferred from grade 4 at East Rochester to grade 5 at Allen School and appointed principal of the building. Miss Elsie King was transferred from grade 5 at Gonic School to East Rochester school to serve as teacher of one section of the first grade which had to be divided because of size. Grades 5 and 6 at Gonic School were combined with Miss Beverly MacIver as teacher.

All school department personnel received substantial increases in pay for the 1948-1949 contract year. Most teachers received increases of \$200 over and above the regular increment of \$150; janitors received increases amounting to \$4.00 per week and cafeteria workers of \$2.00 per week; substitute teacher pay was increased to \$7.50 per day. The salary schedule for Rochester teachers was revised. The salary policy adopted in 1946 included a provision for an economic adjustment in cases where a teacher had dependents. This provision was eliminated in the revised schedule and maximum salaries were increased in all cases.

No changes were made in the janitorial staff of the schools during the year, and but one change was made among the cafeteria employees. Mrs. Susan Gray replaced Mrs. Thelma Stevens at the Spaulding High School cafeteria.

School enrollment for the 1948-1949 school year remained approximately the same as for the previous year. A slight increase in the number of Rochester children attending parochial schools was balanced by an almost equal increase in the number of pupils from other towns who enrolled in our public schools.

The results of the 1948 school census follow:	
Number of children, 5-16, boys, 1,103; girls, 1,039, total	2,142
Number of children, 5-16, not in school	120
Number of children, 5-16, in school	2,022
Number of children registered in public schools, 5-16	1,413
Number of children in parochial schools, 5-16	747

#### PROFESSIONAL TRAINING

The salary policy of the Rochester School Department provides an incentive in the form of increased salaries for teachers tho seek to improve themselves through additional professional training. During 1948 a large percentage of Rochester teachers either attended summer school or enrolled in Saturday or extension courses. Almost all of the elementary teachers completed a course in the "Principles of Art Education" under Dr. Mildred Landis of the State Department of Education. Nine teachers attended summer school, five at the University of New Hampshire, two at Plymouth Teachers College, one at Keene Teachers College, and one at Boston University. Extension courses in the teaching of music and in "Mental Hygiene for Teachers" are currently being offered in Rochester and include many Rochester teachers in their membership.

#### CURRICULUM AND INSTRUCTION

Changes have been made during the year in both the elementary and secondary programs which contribute to the improvement of the educational offerings of the Rochester schools. At Spaulding High School the guidance service has been increased by the addition of Mr. Edward Herman to the guidance staff. Both he and Mrs. Helen Chase, who carry on this work as part-time assignments in addition to their other duties, together give an amount of time equivalent to that which would be provided by a full time guidance counselor. Added emphasis has

been given to the important work of college preparation. This is particularly true in English where special college preparatory divisions have been established in grades eleven and twelve.

In an effort to strengthen the non-college preparatory program vocational agriculture was added to the high school curriculum beginning with the 1948-1949 school year. The enrollment in this course is the largest of any agricultural course in any secondary school in the state. This fact alone amply substantiated the opinion that such a course would meet a felt pupil need.

Beginning in January, 1948, a course in automobile driving supplemented by the use of a dual control car under a trained instructor was made available to Spaulding High School pupils. Because of scheduling difficulties, it has been necessary to hold classes after the regular school hours. This fact, also the consideration that there is an age limitation of sixteen years, has tended to limit the number of pupil enrollments. Some fifty pupils have, however, received during the year a training which should make a contribution to highway safety.

Mention should be made in this report of the stimulus given to the English, the social studies and music programs at Spaulding High School by the opportunity for actual experience in radio broadcasting made possible through the good offices of Station WWNH. Integration of these subjects has also been accomplished through this means, as well as additional focus upon oral expression.

In the elementary schools the curriculum has been improved through the adoption of new texts in English and in arithmetic. The adoptions were made after careful study and recommendation by faculty committees. The arithmetic text is a particularly fortunate addition. Its author, Robert L. Morton, is the outstanding authority in the field; his stress on the "Meaning Theory of Arithmetic" should lead to improved understanding and performance by the pupils.

The appointment of an instructor of physical education for the elementary schools represents an effort to offer a better balanced program for the children in the elementary grades. While the facilities are limited, there being a gymnasium only at Maple Street School, worthwhile training pointed toward the physical and social development of the child is being given on the playgrounds and in the classrooms.

In the spring of 1948 pre-school conferences, under the direction of Dr. Lura Bruce of the State Department of Education, were held in all of the elementary schools. Prospective first graders with their parents were given an opportunity to visit school and meet their teachers and future classmates. The children were given hearing, vision, and dental examinations as well as simple psychological tests. Approximately fifty percent of the children who were to enter first grade in the fall attended the conferences. It seemed to be the general opinion of the parents that the conferences were most valuable and that they should be made a regular practice.

A satisfactory degree of success has been achieved in the use of visual aids to instruction at Spaulding High School. Throughout the year extensive use has been made of moving pictures and film strips in the teaching of a wide variety of subjects. As yet, however, entirely satisfactory results have not been achieved in the elementary schools. That this is so is due to the fact that in the case of moving pictures only one projector is available for all five of the elementary schools and must be rotated among them on a fixed schedule. Consequently, it is hardly possible always to show a film at the most educationally opportune time. Also, these schools have to date been dependent upon free films for their programs.

For the past five years we have attempted to conduct an instrumental music program with the director of the program being with us but one day a week and the instruction being given on a private basis. This program has not been successful. It is my recommendation that a full time instructor be employed who will develop a satisfactory program of instrumental instruction beginning in the middle grades and extending through the high school.

In the coming year attention should be given to the revision of the social studies and health curricula in the elementary schools and to the provision of proper equipment for the carrying out of the commercial course at Spaulding High School. In this latter case a considerable investment is required in business machines in order to bring the course to a point where it can be of practical value.

#### HEALTH AND PHYSICAL EDUCATION

As has been noted previously in this report by the addition of a physical education instructor for the elementary grades the physical education program of the Rochester schools has been extended to cover all grades from one to twelve. While the program offered in the elementary schools is a minimum one, nevertheless it represents a step forward in our effort to provide for the health and physical development of the children.

Interscholastic competition plays an important part in the physical education program at Spaulding High School. During the past year junior high, freshman, junior varsity and varsity teams have competed with other schools in a number of different sports. The teams representing the school in interscholastic competition now include football, baseball, basketball, track, hockey, cross country, and tennis. The financing of this program from Student Activity receipts and admissions has become a problem. In spite of the fact that Student Activity dues and admission charges have been increased the revenue has not been sufficient to carry on the program. It is my suggestion that the School Department assume the cost of the rental of the field lights when night games are played. In this way it could be assured that income from admissions and Student Activity dues would support the interscholastic program.

The school lunch program which was extended to include all of the schools in the 1947-1948 school year has been con-

tinued with outstanding success during the current year. On an average winter day more than one-half of the pupils enrolled in the Rochester public schools eat well-balanced hot meals served to them at a nominal cost in their own school lunch rooms.

The report of the school nurse is appended to this report. In it will be found a detailed account of the work done by her, by the school doctor, and by the dental clinic. Also, since it has already been noted under "Curriculum and Instruction" that pre-school conferences were held in all of the elementary schools during the spring of 1948, the excellent results from these conferences may well be re-emphasized here since one of their major purposes is to assure that every child is in proper physical condition when he begins school.

#### HOME AND SCHOOL RELATIONSHIPS

Every public school in Rochester has an active Parent-Teacher Association. These associations have been media through which parents and teachers have worked together for the improvement of the schools. Their projects, to date, have generally been concerned with the improvement of the playground facilities of the schools through the purchase and installation of playground equipment, and with the provision of moving picture projectors, radios, record players and the like. It is also encouraging to note that there is a growing tendency for these organizations through a careful selection of speakers and a variety of pertinent topics to acquaint themselves with the thinking of outstanding educators.

#### ADULT EDUCATION

It has been the policy of the Rochester School Board to offer adult education courses on a self-supporting basis in any subject for which there is a sufficient demand and for which a suitable instructor can be found. During the present year courses in sewing, shorthand, typewriting, and cabinet making have been held at Spaulding High School. In addition to these adult courses, automobile driver training has been offered for the first time. To date some thirty adults have received instruction in the use of dual control car.

#### THE PHYSICAL PLANT

The physical plant of the Rochester schools has been maintained in good condition during the year and several notable improvements have been made in it. These improvements include: new heating plants at Gonic School and East Rochester School, a new fence at Maple Street School playground, electric hot water heaters in four of the elementary school lunch rooms, a press box at the Spaulding High School athletic field, and the conversion of the bicycle room at Spaulding High School into an agricultural shop and classroom.

During the summer in addition to the regular maintenance work certain of the masonry at Spaulding High School was repaired; new walks were installed at the East Rochester School, and new ceilings in grades 1 and 2 and the lunch room at School Street School. Gonic School and Allen School and parts of the exterior of Spaulding High School were painted and the roof at Allen School was repaired.

Wide use of the school plant by the community has been made during the year. The auditorium at Spaulding High School has been used for a variety of public entertainments of a cultural nature including those of the Community Concerts Association, the Civic Drama Association and the like. The athletic field was used by the Rochester Town Team and the Sunset League for baseball and the gymnasium by the Community Activities Association, and the Rochester City Team and the Rochester City League for basketball. The Maple Street School gymnasium was used by the Community Activities Association for its elementary school basketball league and for an adult ping pong group and by the Holy Rosary High School girls' basketball team for practice.

The extensive use of the Spaulding High School athletic field for community purposes has resulted in the need for the employment of additional help to keep it in reasonably good shape. It would be advisable to consider the employment of an additional janitor for this purpose.

The playgrounds of Maple Street School, Gonic School, and East Rochester School were used by the City during the time the summer playground program was carried on.

In cooperation with the Parent-Teacher Association of the school the Allen School playground was graded and the intervale cleared for a baseball diamond.

Through the good offices of the City Council a floodlighting system was installed at the Spaulding High School athletic field providing excellent lighting for both the football and baseball fields.

Notwithstanding the fact that the elementary buildings have been maintained in good condition and even improved in certain instances it must be recognized that the most recently constructed of them was completed in 1931 and that three were built before 1900 and one other about 1910. While new buildings would be desirable, they are not necessary. It is necessary, however, that these buildings be properly lighted and that modern furniture be installed in them if we are not to continue to jeopardize the vision and posture of our children.

#### SCHOOL PROBLEMS

There are three pressing school problems which warrant separate attention. Elementary school lighting and elementary school seating as has been noted previously are the two most important of these. It must be re-emphasized that existing conditions must be corrected.

A third problem is that of an anticipated increase in enrollment. Because of the tremendous increase in the birth rate

immediately following the war it may be predicted that by 1952 there will be 300 additional pupils in our elementary schools; by 1958 this increased number of children will have reached the high school. Considering this probability it is fortunate that we have eight elementary classrooms left vacant by the transfer of the seventh and eighth grades to Spaulding High School. These classrooms accommodating approximately 250 pupils may provide sufficient space to take care of the expanded enrollment already foreseen. In three of the four buildings where vacant classrooms are being used for lunch rooms it will be possible to use the gymnasium as a lunch room.

It will be necessary, however, to redistrict the city in order to insure that all classrooms are used to capacity and also to provide satisfactory transportation, especially for those affected by the redistricting. It may be wise in contracting for transportation to assure that there is enough flexibility in the contracts to permit changing of the routes to take care of unpredicted population changes. An even more defensible project might be that the School Department purchase buses and employ drivers as is being done in an increasing number of communities.

Related to this problem is the question of the admission of tuition pupils. We have adjacent to Rochester yet outside of its limits a number of communities socially and economically a part of our city. From these sections children come to our schools in large numbers. The question will have to be decided very soon as to whether or not we can continue to offer our educational facilities to these communities.

#### FINANCE

A sound educational program requires adequate financial support. The School Board and the City Council of Rochester are to be commended for the support given to education for the 1948 fiscal year. The budget appropriation made it possible to grant reasonable increases to teachers and other school department employees; also, to improve upon the educational program through the addition of physical education in the elementary schools and vocational agriculture in the high school; to strengthen the guidance and library services at the high school; to provide textbooks and pupils' supplies in reasonable amounts; and to make needed additions and replacements in equipment.

There are, however, certain school improvements recommended in my report for 1947, and re-emphasized in this report, which were not provided for in the appropriation which, as has been indicated, must be made immediately. Modern lighting systems and modern furniture should be installed in all of our elementary buildings. The cost of the installation should be covered by a bond issue and paid off over a period of years in order that the burden of this capital improvement would not fall entirely in any one year.

Other recommendations included in this report requiring added financial support are: provision for instrumental music

on a full-time basis at an annual cost of approximately \$3,500; the addition of a groundsman to the Spaulding High School janitorial staff at a cost of \$2,000; the provision of visual education materials for the elementary schools, \$200; payment for the lighting of the Spaulding High School field for high school games, \$1,000; the purchase of additional equipment for the commercial course at a cost of \$1,000; and the provision of art supplies for the elementary schools at a cost of \$1,100.

In the plans for financing the Rochester schools it has been my purpose to use as a measure for budget requests and recommendations the average cost of supporting schools in the cities of the state exclusive of Manchester and Nashua. Any comparison of expenditures, whether for salaries or other budget items, will show our educational costs to be generally in accord with those of cities of like size. Said in another way, Rochester supports its schools on an average expenditure of money.

It should be noted, however, that Rochester's ability to support its schools is below the average of the cities of the state. This means that either there must be a greater financial effort on the part of Rochester tax payers than is the case in most cities or there must be equalization aid from the state government if schools are to be adequately financed.

The question of state aid will again be before the New Hampshire Legislature in 1949. It obviously should receive the support of our representatives since a continuance of state aid on the basis of previous years means an income of some \$31,000 which, in tax relief, amounts to almost \$2.50 per thousand.

There is another source of income which warrants our attention. We have enrolled in the Rochester schools about 180 pupils from other towns whose tuition is based by School Board regulation on the cost of instruction only rather than on total school cost. Up to a certain point it is economical to receive pupils on this basis but we are approaching an enrollment figure where this is no longer the case. It is, therefore, my suggestion that the School Board regulation be changed to permit a tuition charge based on total school cost which should yield some \$6,000 in additional income.

In concluding this report I should like to express my sincere appreciation to the members of the School Board and to the personnel of the Rochester School Department for their cooperation in making 1948 a year of outstanding educational progress.

Respectfully submitted,

HAROLD T. RAND, Superintendent of Schools.

## REPORT OF HEADMASTER OF HIGH SCHOOL

Mr. Harold T. Rand Superintendent of Schools Rochester, New Hampshire

Dear Mr. Rand:

I hereby submit my report as headmaster of Spaulding High School.

#### ENROLLMENT

		7	8	9	10	11	12	P.G.	Totals
September,	1947								944
September,	1948	142	158	179	167	153	145	3	947

As the above figures indicate our enrollment remains practically the same. Our eighth grade increased in approximately the same proportion that our Freshman class dropped off.

Because of the low birth rate in the 30's it has been predicted that high school attendance will shrink for three years; an increase is then foreseen through the 50's since there was an increased birth rate in the 40's. We can, therefore, be looking for an increase in high school attendance and thus plan on ways to handle it.

#### SUBJECT ENROLLMENT

While most of the class sizes remain about the same, there are certain ones in which decided changes have taken place. I notice that algebra in particular has dropped from 110 to sixtyone this year; this fact is probably accounted for by a slight increase in the number taking general mathematics, junior business training, community civics and a smaller freshman class this year. The over-all freshman mathematics enrollment shows a decrease from 201 to 166. The drop of twenty in aeronautics is probably accounted for by the sixteen enrolled in consumer mathematics, a course not offered last year.

There was a slight drop from 293 to 262 in the science enrollment. There was a corresponding increase in social sciences from 490 to 505. The class averages dropped slightly, too.

Commerce classes dropped from 388 to 334 with business organization and senior office practice being the losers.

Our classes range in size from small, five in advanced machine shop, to large, with thirty-seven in typing, English and "The Family" classes.

The individual enrollments follow:

### SUBJECT ENROLLMENT

#### GUIDANCE

This year the work in guidance has been divided; Mr. Edward Herman advised the boys, and Mrs. John Chase, the girls. In this way more individual counselling can be carried on and more students met and directed. By means of this counselling many students have been helped to do better high school work. In conference between guidance counsellors and pupils, all failures and warnings are now being discussed; thus an endeavor is made to assist in removing the causes of failure.

All juniors were given the Boston University Tests and the counsellors discussed the results with them.

Each year, in the spring, courses are discussed in all eighth grade sections in preparation for choosing high school subjects. The counsellors assist the junior high school teachers in this work.

All new pupils are given a mental ability test.

#### AUTO DRIVING COURSE

This is a course conducted after 2:30 p.m. when other classes have stopped. It is filling a great need and helping about fifty boys and girls to learn how to become good drivers. More pupils should be taking advantage of this type of training.

#### GRADUATES OF 1948

It is always interesting to learn about what happens to our graduates. From our 141 graduates, nineteen went to four-year colleges. Among these institutions are listed the following:

7 University of New Hampshire
1 Boston College
1 Holy Cross
1 U. S. Naval Academy
1 University of the South
1 Lowell Textile Institute
1 Plymouth Teachers College
3 Keene Teachers College
2 U. S. Maritime Academy
1 Gordon College of Theology

Twenty other students went on to junior colleges, business colleges, or into hospital training. Three returned for postgraduate work.

This means that forty-two of the 141 graduates are continuing their formal education in schools.

The others are engaged as follows: twenty in mills, thirteen in offices, twenty in stores, twenty into the armed services, eleven at home, three married, nine in miscellaneous occupations, and three unaccounted for.

#### ADMINISTRATION

Teachers' meetings are being held twice monthly; one is for administrative purposes, and the other is a professional teachers' meeting.

Our plan of professional meetings is as follows:

September Supt. Harold T. Rand Plans for 1948-49

October Moving picture

Class room discipline Corrective Reading Teachers' Panel November January Marks and Marking

Prof. Wayne Koch, University of N. H.

Corrective Reading Teachers' Panel February

Test Results and Their Uses March

Teachers' Panel April Corrective Reading Teachers' Panel

Summary—Corrective Reading Teachers' Panel May

Our purpose this year is to discover what our reading problem is and to devise some plan to handle it.

This year, already, we are trying in our English classes to assist, by means of individual instruction, the very lowest in reading ability. Our aim is to increase speed and comprehension in order that such students may carry on their high school work with a minimum of difficulty. At the same time we try to help the average or superior in reading ability to maintain and improve their speed and comprehension.

Our departments are functioning with meetings whenever the need arises; also, there are frequent informal departmental discussions.

A teacher is on duty each morning at 8:00 a. m. to supervise early morning arrivals and another teacher is on duty until 4:00 p. m. supervising detention pupils and those bus pupils who have to wait for the second bus run.

This winter we have had all junior high school pupils, unless they are in some club activity or having make-up work with a teacher, return to home rooms during club period to await bus arrivals.

#### ATHLETICS AND PHYSICAL EDUCATION

Our plan of physical education for all is proceeding as before. All boys and girls have two classes per week in physical education. Pupils who are on a varsity squad are excused from gym classes to study.

Our aim is to provide sports for all. In following this practice, we have junior and senior varsity football and basketball teams; a freshman-sophomore basketball team and a junior high school basketball team. We have a hockey team, a track team and a cross country team. Tennis is a minor sport as of this date. Our golf team hopes to get started in the spring. The Rochester Country Club directors have offered us some time on the course for practice. Golf and tennis offer a great carry-over value into adult life.

Our intra-mural program provides opportunity for participation to those who are not on a varsity squad. In this way every one can find some opportunity for participation, if he wishes.

Mr. Edward Herman, Director of Athletics and Coach of football and baseball, is assisted by the following coaches:

John McGrail

Director of Physical Education and Coach Junior High

Basketball Harold Thompson

Basketball

Assistant in Football

Wilbur Fay

Hockey
Theodore Lylis
Track

Benjamin Mooney

Track and Cross Country

Alson Brown

Cross Country Charles Beard

harles Beard Tennis

#### EXTRA-CURRICULAR ACTIVITIES

A very important part of school life is called extra-curricular. Teachers assist in the following groups:

Mrs. Irene Wight and Mrs. John Chase Mrs. Irene Koski Miss Nedra Small and Miss Anne Webb Miss Edith Kelley Mr. Wilfrid Creteau

Miss Frances Bailey Mr. Harold Hanson

Mr. Harry Grierson Miss Marion Dow Miss Virginia McNamara Mr. Edward Herlin Mr. Benjamin Mooney Mrs. Douglas Stevenson Debating, Public Speaking and Radio Broadcasting Year Book Adviser Thespians

Red and White
Business Manager, Red and
White
National Honor Society
Projection Club and Student Activity Council
Junior High Planning Board
Publicity Club
Cheerleaders and Pep Club
Torch Club
Hi-Y Club and Science Club
Junior Tri-Hi-Y Club

Miss Martha Farris and Miss Sharon Stepanian Mr. Alexander Milligan Mr. Roger Snow Mrs. Doris Buswell Mr. Charles Beard Mrs. Marion Underhill Mr. Theodore Lylis Mr. Theodore Ayer

Senior Tri-Hi-Y Club Band Assistant Band Director Vocal Music Clef Kings Orchestra Library Club Science Club Boxing Club and Physics Club

#### Class Advisers

Miss Virginia McNamara Mr. John McGrail Mrs. Marion Abbott Mr. Edward Herlin

Seniors Juniors

Miss Anne Webb Mr. Theodore Lylis Mrs. Lola Springfield

Sophomores

Freshmen

Mr. Alson Brown

Our club and class activities take a great deal of the students' time especially if they enter many activities as do quite a number. There is some thought of limiting the number of clubs to which any one pupil may belong. Two objectives would be gained: (1) a greater number of participants, (2) a better grade of work done by each club because of concentration in its field. The main objection to this change is that by so doing we deprive pupils of certain opportunities they may never have again.

Speech is important in the lives of all students. This year much more emphasis has been placed on speech activities than has ever been the case hitherto. We have held a prize speaking contest and are participating in the Bates Debating League and the speech tournament at the University of New Hampshire.

In November a state-wide debate clinic was held at Spaulding.

On January 22 a practice debate tournament was held here at which time 120 students enrolled from ten schools.

A course in speech would be a proper addition to our curriculum; from it could develop our speakers, debaters, and radio broadcasters.

During the past three months we have been presenting broadcasts by radio each Wednesday. Most of the broadcasts have been of the round-table discussion type, some of the musical A telephone loop has been installed in the auditorium so that the broadcasts can be made directly from the school. This has enabled more students to participate. Radio broadcasting seems to me a worthwhile project; however, it entails many pupil rehearsals, much preparation and teacher assistance. Mrs. Irene Wight has been the directing force behind this activity.

Another activity, little seen or known about, is the library group who assist Mrs. Underhill in maintaining and operating a most efficient library by shelving, cataloging, receiving, discharging and mending books. This service should also help the pupils vocationally.

Another vocational type of club is the Projection Club. In this activity the boys learn to operate all types of projectors and help in various classes by acting as projectionists.

Our Thespians have produced a three-act play and are at work on three one-act plays. One of these will be used for competition purposes in the Drama Festival. This group also plans to present two assembly plays.

Our glee clubs have grown in numbers and ability. Their programs include participation in the New Hampshire Festival and Auditions and the New England Festival and Auditions. They presented a Christmas pageant with the band and will participate in the Spring Music Concert. They have lent assistance to many public gatherings of the city.

Our band gave a joint concert with the York High School in the Spaulding High School auditorium. Our band lacks numbers and instrumentation. It has worked hard under difficulties this year and deserves commendation.

The Senior Tri-Hi-Y girls will sponsor the Older Girls'

Conference which will be held in Rochester in March.

The Junior Tri-Hi-Y girls are still sponsoring "Teen Town" at the Legion Hall, thanks to the generosity of the local post of the American Legion.

#### STUDENT ACTIVITY ASSOCIATION

This group meets each week with Mr. Hanson. It approves budgets and pays all bills as well as acts as a clearing house for student problems.

Suggestions are passed to this organization for discussion. If the suggestions meet with approval, necessary steps are taken for their proper functioning. In this way students have a direct voice in all activities.

A financial report is appended.

#### AGRICULTURE

Our new course requires a special report. We have had forty-two boys and girls enrolled. Three have left school so that now our enrollment is thirty-nine. This is one of the largest enrollments of any course in Agriculture in the state.

Our "Aggie" rooms are beginning to take shape. Our class room is fairly well equipped. Our shop is to be equipped shortly. Mr. Alson Brown, teacher, has visited homes and parents of all the boys and girls and has planned a home project with each of them.

Practical projects will help each boy and girl (there are two of the latter) to realize the values of the course and increase interest therein. At the present time the classes are carrying on a poultry project in the "Aggie" shop, starting day-old chicks and raising them to broiler size and selling them. The proceeds will go to the Future Farmers Club of which all are members.

#### HOT LUNCH PROGRAM

Our school continues to serve the government subsidized hot lunch program which continues to be very popular. This past week we had days in which we served over 800 noon lunches with over 700 having the hot plate. Surplus foods continue to be a great help in providing nourishing lunches.

Mrs. Cassie Richardson and staff are to be commended for the high quality of the food preparation and service. A financial statement is appended.

#### RECOMMENDATIONS

I should like to see a course in speech added as an elective for seniors and a course in journalism added as an elective for juniors.

I suggested Distributive Education last year but we had too small an enrollment to warrant scheduling the class. However, twenty of our graduates went into store work this year, as did twenty from last year's class; therefore the need is still present. I think it should be considered seriously.

The members of the science department recommend our dropping physical geography and adding general science in the freshman year. This proposal should receive consideration.

I suggest that the School Board review the number and kind of extra-curricular activities being carried on at Spaulding High School with a view to establishing some policy of financing them.

Again, as last year, I recommend the School Board authorize the elimination of valedictory and salutatory awards.

I recommend a survey of the needs of our outdoor athletic grounds as much work needs to be done there, such as surfacing fields and filling track.

In order that instrumental music may prosper in Spaulding High School, we need to have pupils coming to us who already have had their musical talents developed. This means that we need a full time instrumental teacher who can devote much time to the grade schools and prepare pupils to play instruments.

#### CONCLUSION

I wish to thank you and the School Board for the interest shown in our work and for the cooperation we have received.

It is a pleasure to work at Spaulding High School.

Respectfully yours,

JOHN M. COTTON, Headmaster.

June, 1956 800.00

I have audited the foregoing account of the Student Activity Association for the period from September, 1947 to 1948 and believe the foregoing to be a correct statement.

J. S. TRIPP

## REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

I herewith submit my report as school nurse for the year of 1948.

Few changes have been made in the routine health services in the grade schools. The pupils were weighed and measured in September and June, vision and hearing tests were conducted, physical inspections were made and a selected group were examined by the school physician. It is necessary to inspect the children's hair and skin frequently in order to prevent the spread of pediculosis and skin disease. Fortunately, there was no serious epidemic of any communicable disease during the past year. My duties at the high school consist, principally, of assisting Dr. Barcomb with the physical examinations, follow-up work on the defects found, and the investigation of cases referred by the teachers at the time of my weekly visits. The parents are notified of any deviation from the normal found at the time of inspections. Parent conferences consume considerable time and I made three hundred and fifteen home visits during the year.

Dr. Albert Barcomb, school physician, examined the pupils of grades one, four, seven, and ten. He, also, attended any child sent to him during the year. The parents cooperate very well in having the defects found corrected. It is possible to have remedial care for indigent cases through our clinical facilities and with the help of charitable organizations.

My previous annual reports have carried summaries of the clinical facilities offered the children of Rochester but I feel that they are of sufficient importance to be explained each year. I assist at these clinics.

The Mental Hygiene Clinic held monthly is of great value in determining the grade placement of children who do not adjust to school life easily. The parents of these children are interviewed and advised as to the proper guidance needed in the home. Dr. Anna Philbrook directs the clinic and she is assisted by an examining physician, a psychologist, and a social worker. It is possible to examine and treat about eight children each month. Through the efforts of Dr. Philbrook, a speech correctionist held two clinics here in July and August. Ten children were examined and treated for speech defects. The children responded well to treatment and it is possible that the service may be continued soon as a part of the Mental Hygiene Clinic.

The Dental Clinic was operated in 1948 with Dr. Roland Cullen doing the necessary corrective work on a selected group of children. In December, Dr. Wilfred Roy was asked to share the work and he has generously alloted two half days each month. The clinic is now in operation one-half day each week and considerable work is being accomplished.

The immunization program for the control of communicable diseases is sponsored by the Rochester Visiting Nurse Association.

Six Orthopedic Diagnostic Clinics were held at the Frisbie Memorial Hospital. The Crippled Children's Services of the State Department of Health sponsors this clinic. Drs. Ezra Jones, Carl Friborg, David Webster, Simon Stone, and Ursula Sanders are the attending physicians. Children are examined and referred to the Orthopedic Physiotherapy Clinic, which is held at the Spaulding High School twice each month, for treatment. Whenever surgery or more extensive treatment is indicated the children are sent to the Balch Hospital at Manchester. At present, there ar four local children being treated at the Portsmouth Rehabilitation Center.

The Red Cross Motor Corps furnishes transportation to the various clinics. The service they render is very valuable and I would like to thank them very much.

The Kiwanis Club has donated a Maico Audiometer to the Rochester schools. This machine is very valuable in individual hearing testing, especially in the lower grades. A group testing audiometer is loaned by the State Department of Education but it is not possible to test the young children with it. The pupils of grades three to six, inclusive, were tested with the group audiometer in September and the children showing a hearing loss were retested on the individual machine and then referred to their physicians for treatment. The Kiwanis Club has furnished clothing, glasses, medical care, and the opportunity for a few weeks at camp to a number of children. I would like to thank the Kiwanis Club members for their kindness.

I want, Mr. Rand, to thank you and the teachers for the cooperation I have received during the year of 1948.

Respectfully submitted.

NORA C. SCAHILL, R. N., School Nurse.

#### NO SCHOOL SIGNAL

Twenty-two upon the fire alarm will be the signal for no school. When sounded at 7:05 and 7:45 all schools will be closed for the day. When sounded at 11:15 pupils will be dismissed at the usual morning closing hour for the rest of the day. The same signals will be sounded at Gonic and at East Rochester, and in the morning only, at the Spaulding Fibre Co., North Rochester. Notification will also be broadcast from Station WHEB and WWNH at 7:15 and 7:45.

### INAUGURAL ADDRESS

by C. Wesley Lyons, Mayor January 5, 1949

Gentlemen of the Council:

Rochester was incorporated by royal charter under the date of May 10, 1772. The charter was granted in the name of King George I, and the signing of this document, which gave a "local habitation and a name" to this section, was the last act of government performed by Governor Samuel Shute, his Majesty's Governor of the Colonies of Massachusetts and New Hampshire.

The town was named in honor of the Earl of Rochester, a brother-in-law of King James II, who was one of the eminent men of his time.

This new town was composed of settlers of whom a part were immigrants. All of us except the full-blooded Indians are immigrants or descendants of immigrants. A portion of these settlers came from the section of New Hampshire which is now Dover, and the township was composed of approximately sixty families.

We learn from early history that our early settlers had their many difficulties, as this was an area where the Indians traveled from Great Bay to Winnipesaukee and the north country; and a great deal of time was taken for the building of garrisons and the clearing of land. This was a period which lasted for many years, when the thrill of horror ran through the community, caused by Indian attacks and by hard labor from the improving of land to make an agricultural area.

Now, as a town we progressed. Industries along our two rivers were built up.

In 1737 the management of the affairs of the town was placed in the hands of a board of selectmen and a town clerk. Now, this form of government continued for a period of one hundred and fifty-five years until the fall of 1891, at which time the citizens met in town meeting to form a charter for the city form of government, and it was enacted by legislature. It was the first city charter in New Hampshire, which has only one chamber instead of the ancient style of aldermen and councilmen for transacting the municipal legislation—the Council which, with the Mayor, controls all the public affairs of the city; and it is this form of city government under which we are still operating—a plan which has not only worked exceptionally well for the citizens of Rochester since 1892, but some of our sister cities throughout the state have adopted this form of government.

The first post office was established in Rochester in 1812. Previous to that time they received mail by stagecoaches.

Our first industry was a cotton factory with four carding machines. A scythe factory soon after was established. Because of the fact that the right type of clay was found in this locality, two potteries were established. The industrial side of our city commenced with various small tanneries which led to the shoe industry. The woolen industry started in Gonic in 1838 and in East Rochester in 1863. These industries are still operating, together with the many new industries of various types which have been established during these years. These, together with the cooperation of their employees, have been instrumental in building the type of city we now have. We must not stop here. We must do our utmost to make Rochester attractive to new industry that will continue to build an important part in our city.

In 1774 our first grammar school was opened; and soon after, a district school system was introduced, remaining until its abolishment in 1884. Rochester maintained an academy for twenty years.

In 1792 our first move was made for a public library under the name of the "Rochester Social Library."

Rochester has contributed its full share of men and women to the Revolutionary War, the War of 1812, the Civil War, the Spanish-American War, and the First and Second World Wars. More than sixteen hundred of our men and women served in World War II.

Rochester has built water and sewer systems. We have constructed new roads and highways and have established one of the finest school systems in our state. All of this has been accomplished under this, our present type of municipal government; and now today we have gathered here at these inauguration exercises to organize our city government for the year of 1949. You, as Gentlemen of the Council, have been selected as the representatives of the six wards of this city; and you, together with your Mayor, have taken the oath and the responsibility to serve all the people of Rochester to the best of your ability.

We are fortunate to have and to live in a city that is a friendly city—a community where we have the privilege to obtain our livelihood in the way that we may desire. We have the right to build the church of our choice and to worship God in any way we see fit. Our people have worked together in our Community Chest and various other civic organizations which were instituted not only for the benefit of this, our community, but for the benefit of all. We have built up our many fraternal organizations and our many clubs.

I believe that we all realize that our City of Rochester has been most fortunate in having here such varied industries, but more important and more fortunate are we to have the workers to operate and maintain these industries; for without these workers these same industries could not have maintained their payrolls throughout the years, and without their payrolls we would not have been able to maintain our other activities. We

have been especially fortunate to have had in our city, groups of labor under such able leadership, who have been able to sit down with management and iron out such difficulties as may have arisen without any serious strife.

All of these are necessary and essential to any progressive city.

This section of New Hampshire has always been a recreational area, perhaps not so much as the lake regions, the mountain regions, or the beach regions; but nevertheless we are the gateway at this end of the state to the lakes and to the White Mountains. Even though we have been well aware of this fact, it is my belief that within the last ten years, and definitely so since the end of World War II, we have been more conscious of it. The recreational areas that operated only during our summer vacation months have now become a year-round business with our winter carnivals and our winter sports. Although we aren't engaged in recreation in this particular city, we do derive a great deal of business from it. The improvements that we have made, and those that may be made in the future, will continue to attract these, our recreational visitors. I may go so far as to say that in the future we should devote some thought and give, perhaps, some cooperation to our regional areas, because with our modern means of transportation, no community or town can isolate itself, as we are dependent upon one another.

Many of our clubs have been most cooperative and have devoted some time to the beautification of our highways. This was made possible by the assistance that was rendered by the departments of our city.

We of Rochester are proud of these accomplishments: of our schools, our churches, our mercantile establishments, our agricultural areas and our industries. We, the people of this community, have always worked together. This we must always continue to do.

Now, all of these accomplishments have been made under this present form of municipal government which was instituted in 1891, a period of fifty-seven years. Within the last few years there has been a trend not only throughout New Hampshire, but I think it safe to say throughout the whole country, for casting aside the present charters of cities and towns and introducing charters whereby they would be under the city and town management form of government. We appreciate, with the growth of towns and cities over a period of fifty-seven years, that perhaps our charter could be modernized; or in other words, brought more up-to-date to meet the requirements that were not called for when it was first instituted. Perhaps for the satisfaction of us all, the citizens of Rochester could obtain information relative to the success of this form of government under which many towns throughout New England are operat-ing. Before any change now or in the future is made, we, the people of Rochester, should be confident of having a charter that would be an improvement over our form of city government which has operated successfully for these past fifty-seven years.

If the people of Rochester are interested in obtaining further information and in making a thorough study of the Council-Manager form of government, I will be happy to appoint a citizens' committee representing the people of Rochester in all walks of life: labor, industry, professional, agricultural, social and fraternal groups, and any other groups which may be interested in this plan of government.

The year of 1949 will have its problems, which will not be unlike the problems experienced during the many past administrations. It will be your duty and mine to watch the expenditures of the moneys of our people who have placed us here as representatives to handle their affairs. I may go so far as to say that it may be necessary for us to be far more careful of our expenditures now and in the future. The tax rate, which we as Gentlemen of the Council establish, must not be at a rate that will impose a burden upon the people of Rochester.

On September 19, 1948, Rochester suffered a great loss in the untimely passing of its City Marshal, Thomas K. Redden. Thomas Redden was a young man who faithfully served his country and his city. He was most efficient in his line of duty and his acts of kindness will never be forgotten by the citizens of Rochester.

At this time I will not discuss at great length the various departments of our city. We have, however, two very important problems on which some definite action should be taken at the earliest possible date. The first is our water system. For many years we have realized that improvement and enlargement of our water system must be made. For various reasons, direct steps could not be taken in regard to the actual operations of this work. One of the most important reasons was the fact that we were engaged in the Second World War, at which time men and materials were not available because of the war effort, and directly after the war there was not any noticeable im-provement in this condition. In 1947 test wells were made and prices were obtained for the installation of gravel pack wells which would serve as an auxiliary supply to our present system. Consulting engineers were called in to obtain information as to the advisability of the installation of gravel pack wells or the improvement of our present water system. Now it is my belief that we have been negligent-and I am including myself-for not definitely determining what improvements should be made and for not having obtained approximate costs for the installation of either the auxiliary supply or the improvement of the present system. This is a responsibility that must be faced now or in the very near future.

By the fact that we are a progressive city and because we are a city that has so many advantages, we have succeeded in bringing in new citizens and in building many new homes for our returned veterans who must have homes of their own, and for those of our new citizens who are employed in our many industries.

It is our obligation as a Council to obtain these facts and to

take definite steps to at least determine which of the two abovenamed projects would be practical and to obtain approximate costs for the installation of either one or the other, and to also take steps as to how the same may be financed. In the above statements I am not endeavoring to convey to you that actual operation and installation of the same must immediately take place, but I feel there is no question but we are all aware of these existing conditions—conditions that have such a tremendous bearing upon our other departments: namely, our Fire Department. Without adequate water supply, regardless of how efficient or unlimited an amount of equipment we may have, it would be absolutely useless. A water system is something that goes hand in hand with our Sewer Department. These two are essential and must be maintained and improved for the health and sanitation of our people. Last but not least, with an increase of water supply, it would make it possible for us to build a swimming pool of which our city is badly in need.

A few years ago we of Rochester were quite confident that we had sufficient school buildings to accommodate our young people for some period of time. As I have said so many times, we have the Spaulding School which is one of the finest and one of the best equipped of any in this section of New England. Plus the above, it has beauty not only in itself but in its surroundings. In our continued growth and increase of population—for which we are all happy—we are going to be very soon faced with the problem of the shortage of schoolhouses. A temporary solution of this condition might be the redistricting of the school area of the city. Perhaps within the next few years our population will not increase to such an extent but what additions to the buildings we already have would solve the problem. I am not advocating the building of new schools this year or next year, but let us not wait until we meet with an emergency of inadequate space, which would not only be a great inconvenience to our School Department but would retard the education of the children of our city. To continue to be progressive, let us have foresight by looking ahead to conditions that we know may exist.

May we for a moment discuss our Shade Trees, Parks and Commons under which is operated our various city playgrounds? Each and every year our playgrounds play a more important part in the welfare of the boys and girls of our city. Although in years past the Committee on Shade Trees, Parks and Commons was not considered a too heavy committee, at the present time this particular committee plays a very important part in the welfare of the younger group. I do not believe that our playgrounds function during the summer months as efficiently as they could be made to do. This is not the fault of any administration or of any committee. It is the case of the general public becoming more playground-minded. All of us, regardless of age, are devoting more time to recreation than ever before. Owing to the fact that the Mayor is a member of this committee, I will assure my members that I will assist them to bring about as satisfactory a program as possible for the summer months in the various playgrounds of Rochester. In the last year the City had assistance from organizations which were

instituted for the benefit of the younger group. It is my belief that their advice and counsel is well worth while. We all agree that efficient care to our various parks and commons is a good investment and should be continued. For the past several years no steps were taken for the setting out of trees on new streets or the replacement of those that it was necessary to remove because of disease or age. The chief reason for this was undoubtedly because we were watching our budget so closely and only taking care of items that were absolutely necessary. It would be appreciated if the Committee on Shade Trees, Parks and Commons could present to the members of the Council a plan that could be operated from year to year with the setting out of a certain number of shade trees each and every year.

The Fire and Police Departments, which are essential for the protection of the citizens and their property, I believe are well equipped and well organized and have shown in the past their ability to meet the emergencies which are at any moment arising.

It is my understanding that the fire equipment at East Rochester and Gonic is not sufficient to meet the requirements of these two communities. It is my recommendation that the Fire Committee investigate these conditions and obtain any other information necessary so the Council may be better informed on the conditions that will enable them to take definite action. As these two communities contribute a large amount of taxable property, I further recommend that more police protection be given them. This I will also refer to the Police Committee.

Since the completion of our new South Main Street, motorists have been traveling at a speed greater than reasonable for the safety of our citizens. Therefore, I pray that this Council immediately install traffic lights.

The advisability of the construction of a new municipal garage on a location other than that of its present site in the rear of the City Building has been discussed during past administrations. The ever-increasing cost during the past few years has no doubt been one of the chief reasons for the delay of actual operations rather than urgent need of new quarters. There are many features regarding the present location and buildings that could be criticised. One of them is that the buildings are inadequate for the housing of all of our equipment. During the past two years much equipment has been purchased and a great many thousands of dollars' worth of this equipment is being parked out-of-doors. In the operation of private industry, this would be considered impractical. I believe that some of our equipment is being housed in hired -garages. We will agree that the present location is one of the most valuable in our city; a location which could be utilized as a municipal parking lot; a lot which would be centrally located adjacent to our Police Department. I am quite confident that the development of this public parking lot would be instrumental in inviting more shoppers to our city. This would indirectly help us all.

Some plan might be formulated whereby a less expensive

garage could be erected, which would enable you to make improvements in these so-called "City Yards." The existing conditions are not called to your attention by me in the form of criticism. These buildings are old buildings that have seen many years of service and are past their usefulness. Before the days of automobiles, this was an ideal location. We have progressed and the cleaning up of this unsightly plot, in giving not only our people but the shoppers of this area modern advantages, I feel is something that we should again consider.

With the cooperation and the suggestions from the heads of your various departments, which you will receive, our highways will be maintained and improved, our public buildings will be maintained, our schools and libraries will function efficiently, and the modern and up-to-date equipment in our Fire and Police Departments will protect our citizens and their properties.

Many of you gentlemen who have assembled here in this Council Body have served in your present capacity for some time and have gained much experience during these years, and the new members are also men of integrity and ability. The importance of any individual committee is of no great consequence. We are working together as one body—a body for all the people who have placed their confidence and faith in us.

In conclusion, I take this as an opportune time to convey to you my appreciation for the privilege of being allowed to work with you, and to thank you in advance for the cooperation which I know I shall receive. You are the gentlemen who are the representatives of all the people of Rochester. Your Mayor has been selected to serve with you, to act as your Chairman, and to assist you in any way possible. The Mayor's office will be open to each and every citizen of our city this coming year, as it was in my past administrations. You may rest assured that I will secure all available information that will be beneficial to any of the committees, or to any individual member, or the Council as a whole; and I am sure that with this thought in mind, we will be able to render our people an administration for the ensuing year that will be efficient and close to all the people. We will continue to be progressive, and we will be known as a city of friendly people.

### CITY GOVERNMENT

#### AS ORGANIZED JANUARY 1, 1949

#### Mayor, C. WESLEY LYONS

Ward One—Maurice A. Jones, Frederick J. Grenier, Roland C. White.

Ward Two-Albert Nelson, Frederick Maxfield, Ronald C. Taylor.

Ward Three—Herbert Bowering, Ernest J. Couture, Charles C. Thompson.

Ward Four-Donald Sylvain, Thomas J. Sylvain, Raoul P. Aubin,

Ward Five—Chester D. Jefferson, Wilfred T. Roy, Weston H. Palmer.

Ward Six-George F. Wilson, Norman J. Raitt, Vernon E. Hersom.

City Clerk-D. Arlene Baker.

City Treasurer-Harry S. Johnson.

City Accountant-J. Stacy Tripp.

City Solicitor-Richard F. Cooper.

Collector of Taxes-Downing W. Osborne.

Street Commissioner-Porter Roberts.

Superintendent of Water Works and Sewers-George D. Dame.

Marshal-Erlon H. Furbush.

Assistant Marshal-Vane E. Nickerson.

Patrolmen—Deus Levesque, Nelson S. Hatch, Joseph G. Zuromskis, Willis M. Hayes, Ernest J. Levesque.

Chief Engineer of Fire Department-Ralph G. Seavey.

Deputy Chief Engineers of Fire Department—Wilbur E. Horne, Joseph E. Woodes, William B. Shaw, Frederic Cookson, John Meader.

Overseer of Poor-Forrest L. Keay.

Sanitary Officer-Charles E. Goodwin.

City Physician—Charles E. Moors, Jr.

Board of Health—Charles E. Moors, Jr., Forrest L. Keay, Charles E. Goodwin.

Plumbers' Examining Board—Wilbur E. Horne, Clifford K. Davis, Charles E. Goodwin.

Assessors—Albert R. Chalmers, Howard C. E. Becker, Alfred J. Beaudoin.

Trustees of Trust Funds-Walter A. Bickford, Cecil M. Pike, Bernard F. Nixon.

Trustees of Public Library—Joel W. McCrillis, J. Stacy Tripp, Robert P. Wilson, Charles W. Varney, Jr., Henry J. Grondin, Walter H. Wood.

Licensing Board—Mayor C. Wesley Lyons, City Marshal Erlon H. Furbush, Health Officer Charles E. Goodwin.

Manager of City Hall Auditorium—E. Morrison Douglas.

Building Inspector-Miles H. Dustin.

Janitor-Harry Johnson.

Assistant Janitor-Norman G. Luneau.

Janitor, East Rochester Hall-John F. Hickey.

Janitor, Gonic Hall—Hector Laferte.

Sealer of Weights and Measures-Frank D. Callaghan, Sr.

Special Police—Laurent Autotte, Robert Benner, William J. Blair, Wilfred Boulanger, Percy Brooks, William R. Brown, Alonzo Bunker, F. D. Callaghan, Raymond Chisholm, Ernest Couture, Eudore Couture, George A. Creteau, Peter Cullen, George D. Dame, W. Earl Davis, E. Morrison Douglas, Albert S. Foster, Chester A. Freeman, Aldo B. Garland, Richard A. Geary, Charles E. Goodwin, William D. Hamel, John F. Hickey, Adrian Hodgkins, Ernest E. Horne, John J. Hurley, Edward Joblonski, A. R. LaPointe, Alphonse Lacasse, John Leach, Fred Lyons, Jr., Ambrose Massey, Frank B. Miller, Arthur Mortimer, Fred Mortimer, Eugene O'Brien, Rolf Osterman, Freeman V. Parshley, Michel A. Pelletier, John W. Philbrook, Maxime Portray, George J. Potvin, Bert F. Power, Edgar Remick, Adrian Roulx, Joseph A. Roulx, Felix Sanfacon, Alphonse Sylvain, Richard Varney, Albert L. Wallace, Harvey Warburton, Leland Waterhouse, Joseph Woodes, George Woods, Clarence Woods.

Public Weighers—Herbert Bowering, Dana Copp, Chester A. Davis, Charles E. Fisher, J. Raymond Fisher, Wallace N. Fisher, Robert Hussey, Charles Mattocks, J. A. Morrill, Albert C. Mortimer, Roger E. Page, Orlando E. Pickering, Chester H. Smith, Olive Page Tufts, Albert Warburton, Joseph Woodes, Bert Woodward.

Surveyors of Wood and Lumber—Jesse Ames, Arthur Bonenfant, Nathaniel Davis, Robert Fownes, Samuel Hale, Raoul Lacasse, A. F. Potvin, George J. Potvin, Malcolm Roode, Arthur S. Wallace.

Fence Viewers-Ernest Campbell, Harvey Henderson.

#### STANDING COMMITTEES, 1949

Finance-Mayor, Roy, Nelson.

Shade Trees, Parks and Commons-Mayor, Thompson, T. Sylvain.

Public Instruction-Mayor, Wilson, D. Sylvain.

Claims and Accounts-Mayor, Nelson, Jones.

Public Buildings-Hersom, White, Couture.

Fire Department-Wilson, Maxfield, Grenier.

Roads, Bridges and Drains-Raitt, Maxfield, D. Sylvain.

Water Works and Sewers-Roy, Thompson, T. Sylvain.

Street Lights-Bowering, White, Aubin.

Printing-Jefferson, Hersom, Couture.

Elections and Returns-Palmer, Bowering, Aubin.

Legal Affairs-Mayor, Palmer, Grenier.

Bills in Their Second Reading and Enrolled Ordinances—Taylor, Jefferson, Grenier.

Police-Mayor, Palmer, Jones.

Purchasing-Mayor, Wilson, Jones.

Traffic-Hersom, Raitt, Taylor.
